Stakeholder Consultation Logs – Environmental Report Addendum

St. Laurent Ottawa North Replacement Pipeline Project

Introduction

This Addendum to the Environmental Report for the St. Laurent Ottawa North Replacement Pipeline Project (the Project) provides consultation logs for correspondence conducted after the completion of the Environmental Report Amendment (November 17, 2020) up to December 4, 2020. Another Addendum detailing Project correspondence after December 2, 2020 will be provided to the Ontario Energy Board after filing the Leave-to-Construct Application.

This Addendum should be read in conjunction with the updated consultation logs provided in Appendix D of the Environmental Report Amendment (November 2020). Records of consultation prior to November 17, 2020 are only repeated where necessary to provide context to ongoing correspondence or, where correspondence was mistakenly omitted from the previous logs.

The Environmental Report Amendment is available on the Enbridge Gas project website at <https://www.enbridgegas.com/about-us>. Click on the “Projects” tab and select “St. Laurent Ottawa North Pipeline Project”.

12.2	October 22, 2020	MHSTCI Contacts: Karla Barboza, Laura Hatcher, and Kimberly Livingstone	Dillon representative explained that the Environmental Report submitted to the OPCC on July 21, 2020 was for Phase 3 and Phase 4 of the St. Laurent Pipeline Project and that the Notice of Project Change was regarding a change in the preferred Phase 4 route only. Dillon representative provided a link to the Environmental Report on the Enbridge project website. Dillon representative noted that there was a mix-up between the contact list that Enbridge's regulatory team maintained for the OPCC versus Dillon's Project contact list and that the MHSTCI representative who would have received notice of the Environmental Report in July was not on the original Project contact list. Dillon apologized for this confusion and noted that the correct MHSTCI representatives would be included on Project emails going forward.	N/A	N/A
12.3	November 18, 2020	MHSTCI Contact: Karla Barboza	Dillon representative sent an email with the Updated Notice of Project Change and provided a link to the Environmental Report Amendment on the Enbridge project website.	N/A	N/A

16.1	November 18, 2020	Ministry of Natural Resources and Forestry (MNRF) Contact: Scott Lee	Dillon representative sent an email with the Updated Notice of Project Change and provided a link to the Environmental Report Amendment on the Enbridge project website.	N/A	N/A
17.1	November 18, 2020	Ministry of Transportation (MTO) Contact: Alexandre Gitkow, Alain Nadeau, and Cheryl Tolles	Dillon representative sent an email with the Updated Notice of Project Change and provided a link to the Environmental Report Amendment on the Enbridge project website.	November 19, 2020	MTO representative asked for clarification on the path of the new preferred route and the relevance of the alternative route shown on the figure attached to the Updated Notice of Project Change letter.
17.2	December 2, 2020	MTO Contacts: Contact: Alexandre Gitkow, Cheryl Tolles, and Stephen Kapusta	MTO representative followed up on their November 19, 2020 email, requesting clarification on the path of the new preferred route in order to be able to provide comments before the December 17, 2020 deadline.	December 2, 2020	Dillon representative apologized for the delayed response and provided the requested clarification on the preferred and alternative routes.

Line Item	Date of Consultation	Name of Agency and/or Contact	Description of Consultation Activity	Date of Response	Response and Issue Resolution (if applicable)
17.3	December 3, 2020	MTO Contacts: Contact: Alexandre Gitkow, Alain Nadeau, Cheryl Tolles, and Stephen Kapusta	MTO representative provided a letter in response to the Updated Notice of Project Change with the following key comments with regard to the preferred route at the Vanier Parkway: <ul style="list-style-type: none"> The preferred route alongside the property line of the westbound Highway 417 on-ramp at Vanier Parkway will not be supported by the MTO as it places constraints on MTO future ramp, highway and bridge maintenance, repair or construction. In addition, the MTO does not allow utilities to run parallel to freeways and this option would run parallel for approximately 0.5 km. The alternative route shown to the north of the RCMP building and coming down North River Road and then along the Rideau River Eastern Pathway to connect to the existing pipeline that crosses the Rideau River is MTO's preferred pipeline alignment, as it would remove the constraints of the Vanier Parkway route and remove the section of existing pipeline that runs parallel to the highway. If Enbridge has future work on the pipeline crossing at the Rideau River, or is planning to place a new crossing at the Rideau River, the MTO will request that the pipeline be relocated north of the existing location to avoid conflict with MTO bridge repairs and future reconstruction. <p>MTO representative requested a response to their concerns so that they may work together towards a mutually agreeable solution.</p>	N/A	N/A
18.1	November 18, 2020	Ministry of Environment, Conservation and Parks (MECP) Contacts: Sarah Paul and Annamaria Cross	Dillon representative sent an email with the Updated Notice of Project Change and provided a link to the Environmental Report Amendment on the Enbridge project website.	N/A	N/A
19.1	November 19, 2020	Ministry of Energy, Northern Development and Mines (MENDM) Contacts: Dan Delaquis, Jason McCullough, and Shannon McCabe	Enbridge representative sent an email with the Updated Notice of Project Change and inquired as to whether the change to the Project impacts MENDM's delegation of the duty to consult for the Project. More specifically, whether the routing change affects which Indigenous groups Enbridge has been directed to consult with on the Project.	November 23, 2020	MENDM representative thanked Enbridge representative for the information on the Project routing change and noted that it does not alter the consultation requirement previously communicated by MENDM. MENDM representative stated that they expect the Project change to be communicated to Indigenous communities through the consultation process, but the communities previously identified for consultation have not changed.
19.2	November 23, 2020	MENDM Contact: Jason McCullough	Enbridge representative thanked MENDM representative.	N/A	N/A
