The delivery rates that vary with consumption decreased based on our forecast cost of delivering natural gas to your home or business. These charges also include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you. The facility carbon charge has decreased from 0.0157 cents per cubic metre (¢/m^3) to 0.0143 ¢/m^3 .

Transportation to Enbridge

The transportation charge has decreased by approximately \$12.03 per year for a typical customer due to lower costs for transporting natural gas to Ontario.

Federal Carbon Charge

The federal carbon charge has increased from 12.39 ¢/m^3 to 15.25 ¢/m^3 . This charge increases annually each April. All of the money collected for this charge goes to the government.
