# New natural gas rates

The Ontario Energy Board (OEB) has approved changes to Enbridge Gas' rates effective **Jan. 1, 2022**.

The total impact on your bill will depend on how much gas you use and the terms of your gas marketer agreement.

## Customer Charge

The monthly charge increased to \$74.91 a month to partially recover some of the fixed costs associated with maintaining a safe and reliable natural gas distribution system.

## Delivery to You

The delivery rates that vary with consumption increased based on our forecast cost of delivering natural gas to your business. These charges also include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you.

## Transportation to Enbridge

### **If your transportation service is provided by Enbridge**

A 'Transportation to Enbridge' charge will appear in the top Enbridge section of your gas charges.

If Enbridge Gas provides transportation service from Western Canada and the United States to our distribution system in Ontario, the rate effective Jan. 1, 2022 is 4.4511 cents per cubic metre ( $\text{¢}/\text{m}^3$ ), an increase from 4.1543  $\text{¢}/\text{m}^3$ .

If Enbridge Gas provides transportation service from the Dawn market hub in southwestern Ontario to our distribution system, the rate decreased from 0.9703  $\text{¢}/\text{m}^3$  to 0.9694  $\text{¢}/\text{m}^3$ . In this case, your marketer either provides transportation service for your gas supply to the Dawn market hub or purchases gas supply at the Dawn market hub. The rate you pay for transportation and/or gas supply from your marketer is based on the terms of your gas marketer agreement and these charges will appear in the marketer section of your gas charges.

## **If your transportation service is provided by your marketer**

Your 'Transportation to Enbridge' charge will appear with your marketer charges on your bill. The rate you pay for transportation is based on the terms of your gas marketer agreement.

## **Federal Carbon Charge**

The federal carbon charge is 7.8300 cents per cubic metre (¢/m<sup>3</sup>). This charge increases annually each April. All of the money collected for this charge goes to the federal government.

## **Gas Supply Charge**

The price you pay for the natural gas you use, shown as the gas supply charge on your bill, depends on the terms of your gas marketer agreement.

## **Cost Adjustment**

The current adjustment includes a charge of 0.0597 ¢/m<sup>3</sup> for delivery and a refund of 0.1811 ¢/m<sup>3</sup> for transportation. The cost adjustment is in effect until Dec. 31, 2022. The cost adjustment reflects the true-up between actual and forecast prices for prior periods. Please see the chart on the reverse for the breakdown by component.

---

Charges for gas used from Jan. 1, 2022 will be calculated using the new approved rates as shown on the reverse. The annualized impact is based on a typical commercial and industrial heating and water heating customer who uses 22,606 cubic metres (m<sup>3</sup>) per year.
