# Natural gas rates have changed

## Rate 6

For **commercial and industrial customers** who purchase their gas supply from a **gas marketer**

## New natural gas rates

The Ontario Energy Board (OEB) has approved changes to Enbridge Gas' rates effective **Oct. 1, 2021**. The total impact on your bill will depend on how much gas you use and the terms of your gas marketer agreement.

### Delivery to You

The delivery rates that vary with consumption increased based on our forecast cost of delivering natural gas to your business. These charges also include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you.

### Transportation to Enbridge

#### If your transportation service is provided by Enbridge

A 'Transportation to Enbridge' charge will appear in the top Enbridge section of your gas charges.

If Enbridge Gas provides transportation service from Western Canada and the United States to our distribution system in Ontario, the rate effective Oct. 1, 2021 is 4.1543 cents per cubic metre (¢/m<sup>3</sup>), an increase from 3.7141 ¢/m<sup>3</sup>.

If Enbridge Gas provides transportation service from the Dawn market hub in southwestern Ontario to our distribution system, the rate remains unchanged at 0.9703 ¢/m<sup>3</sup>. In this case, your marketer either provides transportation service for your gas supply to the Dawn market hub or purchases gas supply at the Dawn market hub. The rate you pay for transportation and/or gas supply from your marketer is based on the terms of your gas marketer agreement and these charges will appear in the marketer section of your gas charges.

#### If your transportation service is provided by your marketer

Your 'Transportation to Enbridge' charge will appear with your marketer charges on your bill. The rate you pay for transportation is based on the terms of your gas marketer agreement.

### Federal Carbon Charge

The federal carbon charge is 7.8300 cents per cubic metre (¢/m<sup>3</sup>). This charge increases annually each April. All of the money collected for this charge goes to the federal government.

### Gas Supply Charge

The price you pay for the natural gas you use, shown as the gas supply charge on your bill, depends on the terms of your gas marketer agreement.

### Cost Adjustment

The current adjustment includes a refund of 0.1413 ¢/m<sup>3</sup> for delivery and a refund of 0.1326 ¢/m<sup>3</sup> for transportation. The cost adjustment is in effect until Dec. 31, 2022.

### Rate Adjustment

The OEB has approved a rate adjustment to reflect the difference between the amount customers paid for energy conservation programs (DSM) from Jan. 1 to Dec. 31, 2019 and the actual costs incurred. This will appear as a one-time charge on customers' October bills, and for a typical commercial customer this will be a charge of approximately \$3.96.

The OEB has also approved a rate adjustment to reflect the clearance of 2019 deferral and variance account balances. This will appear as a one-time charge on customer's October bills, and for a typical commercial customer this will be a charge of approximately \$5.09 (Enbridge provides transportation) or \$4.75 (Marketer provides transportation).

The adjustments will be combined and appear as a single Rate Adjustment line item on your bill.

Charges for gas used from Oct. 1, 2021 will be calculated using the new approved rates as shown below. The annualized impact is based on a typical commercial and industrial heating and water heating customer who uses 22,606 cubic metres (m<sup>3</sup>) per year.
