

New Rate Information

April 2024

Transportation Service Customer Notice – Rate 145

Natural Gas Prices Have Changed

The Ontario Energy Board (OEB) has approved changes to Enbridge Gas' charges effective **April 1, 2024**. On average, these changes will amount to a decrease of approximately 3.1 percent annually.

The impact on your bill will depend on how much natural gas your organization uses and the terms of your gas marketer agreement.

The price you pay for the natural gas you use, shown as the Gas Supply Charge on your bill, depends on the terms of your agreement with your gas marketer.

Your current bill has been calculated using the new approved rates for gas consumed from April 1, 2024. The rate chart is included in this notice.

Delivery to You

The delivery rates that vary with consumption decreased based on our forecast cost of delivering natural gas to your business. These charges also include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you. The facility carbon charge has decreased from 0.0157 cents per cubic metre ($\text{¢}/\text{m}^3$) to 0.0143 $\text{¢}/\text{m}^3$.

Load Balancing Charge

The load balancing charge has decreased due to lower seasonal load balancing related costs.

Transportation to Enbridge

A 'Transportation to Enbridge' charge will appear in the top Enbridge section of your gas charges.

If Enbridge Gas provides transportation service from Western Canada and the United States to our distribution system in Ontario, the rate effective April 1, 2024 is 4.4125 $\text{¢}/\text{m}^3$, a decrease from 4.7411 $\text{¢}/\text{m}^3$.

If Enbridge Gas provides transportation service from the Dawn market hub in southwestern Ontario to our distribution system, the rate remains at 0.9239 $\text{¢}/\text{m}^3$. In this case, your marketer either provides transportation service for your gas supply to the Dawn market hub or purchases gas supply at the Dawn market hub. The rate you pay for transportation and/or gas supply from your marketer is based on the terms of your gas marketer agreement and these charges will appear in the marketer section of your gas charges.

If your transportation service is provided by your marketer

Your 'Transportation to Enbridge' charge will appear with your marketer charges on your bill. The rate you pay for transportation is based on the terms of your gas marketer agreement.

Federal Carbon Charge

The federal carbon charge has increased from 12.39 $\text{¢}/\text{m}^3$ to 15.25 $\text{¢}/\text{m}^3$. This charge increases annually each April. All of the money collected for this charge goes to the government. Some businesses may be eligible for full or partial exemption from this charge under the federal carbon pricing program.

Visit enbridgegas.com/federalcarbonprogram for more information.

Cost Adjustment

The current cost adjustment includes a refund of 0.0746 $\text{¢}/\text{m}^3$ for load balancing and a charge of 0.1989 $\text{¢}/\text{m}^3$ for transportation. The cost adjustment is in effect until March 31, 2025.

Our supply prices are based on a forecast of market prices for the next 12 months. The forecasted prices are reviewed every three months and adjusted accordingly. If our forecasts are over or under our actual costs, the difference is refunded or collected from customers through cost adjustments.

Rate Adjustment

The OEB has approved a rate adjustment to reflect the clearance of 2022 federal carbon deferral and variance account balances. This will appear as a one-time refund on customers' April bills:

Non-EPS: A total refund of 0.0018 ¢/m³

EPS: A total refund of 0.0018 ¢/m³

The OEB has also previously approved a rate adjustment to reflect the clearance of 2022 deferral and variance account balances. This will appear as a one-time adjustment on customer's April bills.

Transportation from Enbridge: A charge of 0 ¢/m³

Transportation from a Marketer (Ontario T-Service): A charge of 0 ¢/m³

Transportation from a Marketer (Dawn T-Service): A charge of 0.36 ¢/m³
