

Enbridge Gas Receives Ontario Energy Board Approval for Rate Changes Effective Jan. 1, 2022

December 17, 2021

Enbridge Gas recently received approval from the Ontario Energy Board (OEB) for rate changes effective Jan. 1, 2022 ([EB-2021-0281](#)). These changes were proposed to the OEB earlier this month as part of the Quarterly Rate Adjustment Mechanism (QRAM) and approved as filed.

QRAM is the mechanism Enbridge Gas uses to review and adjust our rates for changes in natural gas prices. This is done every three months to reflect ongoing changes in the market price of natural gas and to adjust for the difference between the forecasted price of natural gas and actual price from prior periods.

Increasing demand related to both North American consumption and increased LNG exports destined for European/Asian markets and a shift into the heating season in North America, has put upward pressure on the market prices of natural gas. Enbridge Gas has taken steps to reduce the bill impact of the Jan. 1 QRAM on our customers, working with the Ontario Energy Board and the Government of Ontario. Enbridge Gas will recover deferred costs at a later date.

In addition to updating rates in the EGD and Union rate zones in accordance with Enbridge Gas' Board-approved QRAM methodologies, Jan. 1, 2022 rates will also reflect the OEB's Oct. 28, 2021 decision in [EB-2021-0147](#) approving Phase 1 of Enbridge Gas' 2022 annual rate application. Distribution rates change annually based on the incentive rate-setting mechanism (IRM) related elements. Phase 1 rate changes include price cap escalation, pass-through costs, capital pass-through adjustments and Parkway Delivery Obligation rate adjustments. More information on the 2022 annual rate application can be found in our [July 22, 2021 communication](#).
