

## CONSTRUCTION DETAILS

1. The proposed construction schedule is as follows:
  - Expected LTC Approval December 2018
  - Receipt of Permits and Approvals December 2018
  - Commence Construction January 2019
  - Completion of Construction September 2019
  - Completion of Reinstatement October 2019
  - Final Inspection December 2020
  
2. The construction of the pipeline will take approximately 10 months. Pipeline construction is scheduled to be completed by September 2019 and in service in October 2019.
  
3. Enbridge will construct the pipeline using qualified construction contractors following approved construction specifications updated to reflect the site specific conditions found on this Project.
  
4. Restoration monitoring will be conducted through 2020 to ensure successful environmental mitigation.
  
5. Post construction reports will be issued upon completion of the Project as required by the Ontario Energy Board.
