

LAND REQUIREMENTS

1. The preferred route is described in Exhibit C, Tab 1, Schedule 1.
2. The proposed route may require a bylaw or easement where municipal road allowances are not dedicated. There are four residential properties where the road allowance is forced. If it is determined that these four sections of road are privately owned, easements will be obtained. All owners of the subject properties have been identified in the affidavit of title search and the interested parties list. The rest of the preferred route follows the public road allowance. Enbridge Gas Inc. will be required to obtain road occupancy permits from the Township of Springwater and Township of Wasaga Beach.
3. The contact information for all interested parties and affected landowners can be found at Exhibit F, Tab 1, Schedule 4.
