1.1	September 28, 2018	Beausoleil First Nation (BFN)	Email -Outgoing	The Enbridge representative contacted BFN and provided the Notice of Project Commencement of the Georgian Sands Pipeline Project (Project), Enbridge's Letter to the Chief and the delegation letter from the Ministry of Energy, Northern Development and Mines (MOENDM).	N/A	N/A	N/A	Attachment 1.1
1.2	September 28, 2018	BFN	Via Mail	The Enbridge representative sent a letter to the Chief of BFN to notify him of the Notice of Project Commencement and the upcoming information sessions.	N/A	N/A	N/A	Attachment 1.2
1.2a	October 4, 2018	BFN	Phone Call – outgoing	The Enbridge representative left a voice message with the BFN representative regarding the Project. The Enbridge representative indicated that the scope of the Project included the installation of 6 km of natural gas pipeline to help meet the growing demands of a subdivision being constructed in the Town of Wasaga Beach. The Enbridge representative requested a call back.	October 4, 2018	The BFN representative contacted the Enbridge representative and provided the contact information for the consultation coordinator. The Enbridge representative contacted the Lands Coordinator and provided a brief overview of the Project over the phone. The Enbridge representative committed to sending the Lands Coordinator the Project information via Email.	N/A	N/A
1.3	October 5, 2018	Lands Coordinator BFN	Email – outgoing	The Enbridge representative emailed a copy of the Project Notification letter to the BFN Lands Coordinator and indicated they would follow up within one week to discuss the Project and answer any questions the BFN may have.	N/A	N/A	N/A	Attachment 1.3
1.3a	October 22, 2018	Chief of BFN	Phone Call – outgoing	The Enbridge representative contacted the BFN Chief regarding the Georgian Sands Project. The Enbridge representative asked if the Chief had the opportunity to review the Project information and if he had any questions regarding the proposed natural gas project. Enbridge provided him with a brief overview of the Project for additional context. The Chief indicated that he had received the information but had passed it along to his consultation representative for his review. The Chief suggested Enbridge contact the consultation representative directly to discuss the Project and provided his contact information to Enbridge. The Enbridge representative thanked the Chief and indicated that she appreciated the opportunity to discuss the Project with him and better understand the community's consultation process. Enbridge also congratulated him on his recent win as the new Chief for BFN. The Enbridge representative committed to reaching out to the consultation representative to discuss the Project further. The Chief thanked Enbridge and advised that he appreciated the follow up call.	N/A	N/A	N/A	N/A

1.4	October 24, 2018	BFN	Email – incoming	The Enbridge representative received an email from BFN's Compliance Supervisor / Environmental Specialist advising that they did not receive the notice regarding the information session until October 16th. They requested any information on the archaeological studies and species inventory for the area of the proposed pipeline and advised that more information is required to make an informed decision.	October 24, 2018	The Enbridge representative responded stating they are still in the preliminary stages of the proposed Project and welcome the opportunity to meet with BFN to provide a Project overview and answer any questions they may have from an environmental perspective. The Enbridge representative informed BFN that the Stage 1 archaeological assessment report is still being developed and they will provide BFN with a copy as soon as the report has been finalized. They also indicated that the preliminary Stage 1 archaeological assessment indicates that a Stage 2 survey will be required, and Enbridge encourages and welcomes the opportunity for a BFN community member to partake in the field studies. The Enbridge Representative requested that BFN provide her with potential meeting dates.	Enbridge to provide BFN with copy of the Stage 1 archaeological assessment (completed December 3, 2018 – see 1.6)	Attachment 1.4
1.5	October 25, 2018	BFN	Email – outgoing	The Enbridge representative emailed the BFN Lands Manager after speaking with the Chief who suggested the Lands Manager be contacted. A copy of the Notice of Commencement and letter from the MOENDM were attached.	N/A	N/A	N/A	Attachment 1.5
1.6	December 3, 2018	BFN	Email – outgoing	An Enbridge representative emailed a copy of the Stage 1 Archeological Assessment report for the Project. The Enbridge representative advised that Enbridge is planning to complete the stage 2 archaeological survey next spring (2019) and indicated she would reach out at that point to inquire if BFN would like to send a monitor to participate in the stage 2 field work.	N/A	N/A	N/A	Attachment 1.6
1.7	February 1, 2019	BFN	Email – outgoing	An Enbridge representative emailed BFN to follow-up regarding the Project, re-attaching a copy of the Project notification letter for ease of reference. Enbridge stated that they are planning to start the Stage 2 archaeological assessment field work in the spring and to let her know if a representative from BFN was available to participate in the field work. 3.2	October 23, 2018	CRFN <i>Chippewas of Rama First Nation (CRFN)</i>	Phone Call – incoming	The CRFN representative left a message with the Enbridge representative requesting a call back.	October 23, 2018	The Enbridge representative contacted the CRFN consultation representative. The CRFN representative inquired why Enbridge was reaching out to CRFN regarding the Georgian Sands Project if the First Nation did not have any land where the proposed Project has taking place. Enbridge explained that they are regulated by the Ontario Energy Board and the Ministry of Energy, Northern Development and Mines (MOENDM) delegated the procedural aspects of the duty to consult to Enbridge. For this Project, the MOENDM listed CRFN as one of the communities that Enbridge was required to consult with. Enbridge committed to sending the consultation representative a copy of the MOENDM letter for her information and reference. The CRFN representative thanked Enbridge for the explanation as she was unclear as to why Enbridge was reaching out to her regarding the Project. The Enbridge representative indicated that she would be happy to meet with her to provide her with an overview of the Project if CRFN was interested, or if they were only interested in the archaeology. Enbridge would be happy to engage a representative in the stage 2 archaeological assessment. Alternatively, if CRFN was not interested in being engaged in the Project or did not have any concerns with the Project that Enbridge would appreciate knowing the community's position and/or interests pertaining to this Project. The CRFN representative thanked Enbridge for providing her with a better understanding of why CRFN was being contacted regarding the Georgian Sands Project and committed to reviewing the MOENDM letter and getting back to Enbridge with any questions she may have regarding the Project. 3.3	February 1, 2019	CRFN	Email – outgoing	The Enbridge representative emailed the CRFN representative to follow-up regarding the Project, re-attaching a copy of the notification letter for ease of reference. Enbridge stated that they are planning to start the Stage 2 archaeological assessment field work in the spring and let them know if a representative from CRFN was available to participate in the field work. Enbridge also provided a copy of the Stage 1 Archeological Assessment report for the Project.	N/A	N/A	N/A	Attachment 3.3
3.4	February 5, 2019	CRFN	Email – incoming	The CRFN representative emailed the Enbridge representative requesting a copy of the Stage 1 Archeological Assessment report for the Project.	February 5, 2019	The Enbridge representative responded providing a copy of the Archeological Assessment report. She also stated that Enbridge is planning to start the Stage 2 field work in the spring and inquired if there is interest for a monitor from CRFN to participate.	N/A	Attachment 3.4
3.4a	February 8, 2019	CRFN	Email – incoming	The CRFN representative emailed inquiring if Stantec will be completing the Stage 2 Archaeological Assessment and if there is a start date confirmed. The CRFN representative stated that they would like to be involved in the Stage 2 assessment.	February 8, 2019	The Enbridge representative responded stating that the work will not commence until the spring when the snow is melted and Enbridge will provide the details when confirmed. The Enbridge representative also stated that the CRFN Consultation Worker had been in contact with Enbridge and confirmed that she was the point of contact regarding consultation.	Enbridge to engage CRFN in the Stage 2 Archaeological Assessment fieldwork.	Attachment 3.4

3.5	February 8, 2019	CRFN Chippewas of Rama First Nation (CRFN)	Phone Call - Incoming	The CRFN Consultation Worker left a message with the Enbridge representative stating that the community was interested in participating in the Stage 2 Archaeological Assessment field work and requested a call back from Enbridge.	February 8, 2019	The Enbridge representative responded via telephone thanking the CRFN representative for reaching out regarding the proposed Project. The Enbridge representative stated that she had reached out to the community multiple times regarding the Project with minimal response and was pleased that the CRFN Consultation Worker expressed interest in participating in the Stage 2 Archaeological Assessment. The CRFN Consultation Worker explained that she was new to the position and had reached out to Enbridge but there was no response. During the telephone discussion, the CRFN representative learned that she had not been sending her emails to the correct Enbridge email. Accordingly, Enbridge and the CRFN exchanged contact information. The Enbridge representative committed to sending the CRFN representative a draft copy of the Archaeological Monitoring Agreement for her review and approval and expressed an interest to meet with the CRFN representative to provide her with an overview of the Project should she wish. The CRFN representative indicated that she would reach out in the near future to meet but did not have any immediate concerns regarding the project at the moment.	N/A	N/A
3.5a	February 8, 2019	CRFN	Email – incoming	The CRFN representative emailed the Enbridge representative providing the hourly rate for their environmental monitor.	February 8, 2019	The Enbridge representative responded stating they will send a draft archaeological monitoring agreement early next week for CRFN review.	N/A	Attachment 3.5a
3.6	February 13, 2019	CRFN	Email – outgoing	The Enbridge representative provided a list of Terrestrial Species At Risk and Terrestrial Species of Conservation Concern that Enbridge identified during the desktop study and correspondence with the MNRF. The Enbridge representative provided further detail that during the site investigation along the proposed route, no rare or specialized habitat for wildlife was identified in the Study Area and the potential for species to be present is limited by habitat suitability and availability. The environmental report was included in the email.	February 14, 2019	CRFN responded and thanked Enbridge for providing the information and will follow up if there are any questions.		Attachment 3.6 The Environmental Report can be found at Exhibit C, Tab 1, Schedule 3, attachment 1.

4.2d	October 22, 2018	HWN	Phone Call – outgoing	<p>The Enbridge representative and the HWN Project coordinator held a conference call to discuss the Georgian Sands Project. The Enbridge representative provided HWN with an overview of the Project explaining that Enbridge was planning to construct a 6 km natural gas pipeline in the Town of Wasaga Beach as a result of a housing development that was being constructed. Enbridge explained that the purpose of the Project was to service the 1000 homes with natural gas. Enbridge further explained that the Project was not being constructed on new land but rather along an existing road allowance to help mitigate any disturbance to the land and the environment. Enbridge also indicated that a stage 1 archaeological assessment was completed but it had not been sent to the Ministry as of yet, but the draft report indicated that a Stage 2 was recommended. The HWN representative asked when the stage 2 was being planned for. The Enbridge representative indicated that it would either be completed by the end of this year (before the ground freezes) or it would be completed next Spring. Enbridge stated that as soon as a decision was made she would inform the HWN to ensure that a representative was engaged in the Stage 2 archaeological assessment and committed to providing her with reasonable capacity funding to ensure an HWN representative would be able to participate in the Stage 2 archaeological assessment. Enbridge also indicated that she anticipated the HWN representative would be required for approximately 5 days (i.e. two days of travel and 2 to 3 days of field work). HWN inquired what other First Nations were involved in the Project. Enbridge provided her with the five First Nations that were identified in the MOENDM delegation letter and committed to sending her a copy of the MOENDM letter for her information and reference. The HWN representative thanked Enbridge for the information and indicated that she would wait to hear back regarding when the Stage 2 archaeological assessment would take place. Enbridge thanked the HWN for her time and committed to getting back to her as soon as a decision was made.</p>	N/A	N/A	Enbridge to engage HWN in the Stage 2 Archaeological Assessment.	N/A

5.2	November 2, 2018	MNO	Email – incoming	The MNO representative provided the agenda for the upcoming meeting.	November 2, 2018	The Enbridge representative provided one edit to the agenda.	N/A	Attachment 5.2
5.3	November 5, 2018	MNO	Meeting	The Enbridge representative met with the MNO Regional Council regarding the Project. Enbridge discussed the Project in its entirety including Project scope and overview, Project details, map of the proposed route and Project timelines. The discussions also included archaeological interests pertaining to the Project. The Enbridge representative extended the opportunity to have an MNO representative participate in the Stage 2 archaeological assessment. The MNO expressed an interest in engagement pertaining to archaeological surveys and if Métis artifacts and Métis archaeological sites would be reviewed. Enbridge committed to getting back to the MNO with an update and providing the Council with a copy of the Stage 1 and Stage 2 archaeological reports. The MNO also expressed an interest in understanding the RFP language used specific to Indigenous employment. Enbridge committed to providing the MNO with some me high level language typically used. Overall, the MNO did not express any Project specific concerns.	N/A	N/A	N/A	Attachment 5.3
5.4	December 3, 2018	MNO	Email – outgoing	The Enbridge representative emailed a copy of the Stage 1 Archeological Assessment report for the Project. The Enbridge representative also stated that Enbridge is planning to complete the stage 2 archaeological survey next spring (2019) and they will reach out at that point to inquire if MNO would like to send a monitor to participate in the stage 2 field work. 5.7a	February 1, 2019	MNO	Email – outgoing	The Enbridge representative responded stating that Enbridge would cover travelling costs and hourly wages for an MNO monitor to participate in the stage 2 field work.	N/A	N/A	N/A	Attachment 5.7
5.8	February 13, 2019	MNO	Email – outgoing	The Enbridge representative provided a list of Terrestrial Species At Risk and Terrestrial Species of Conservation Concern that Enbridge identified during the desktop study and correspondence with the MNRF. The Enbridge representative provided further detail that during the site investigation along the proposed route, no rare or specialized habitat for wildlife was identified in the Study Area and the potential for species to be present is limited by habitat suitability and availability. The environmental report was included in the email.				Attachment 5.8 The Environmental Report can be found at Exhibit C, Tab 1, Schedule 3, attachment 1.
