

NOTICE OF STUDY COMMENCEMENT AND INFORMATION SESSION

ENBRIDGE GAS DISTRIBUTION INC. PROPOSED GEORGIAN SANDS PIPELINE PROJECT

Enbridge Gas Distribution Inc. ("Enbridge") is proposing to construct a pipeline to service the Georgian Sands planned subdivision in Simcoe County. The Georgian Sands Pipeline Project ("the Project") will include the construction of approximately 6.3 kilometres (km) of Nominal Pipe Size (NPS) 6" Intermediate Pressure (IP) polyethylene natural gas pipeline.

Public consultation with landowners, Indigenous communities, government agencies and other interested persons is an integral component of the planning process. An Information Session regarding the proposed Project will be held as follows:

October 10, 2018
5:00 p.m. to 8:00 p.m.
Royal Canadian Legion Branch 262
7 John Street
Elmvale, ON L0L 1P0

The Information Session will be conducted as drop-in style, and representatives will be available to discuss the proposed Project including the proposed routes, design and the anticipated Project schedule. Input received will be used to inform the planning around the preferred pipeline route, and to develop site specific environmental protection or mitigation measures for the Project.

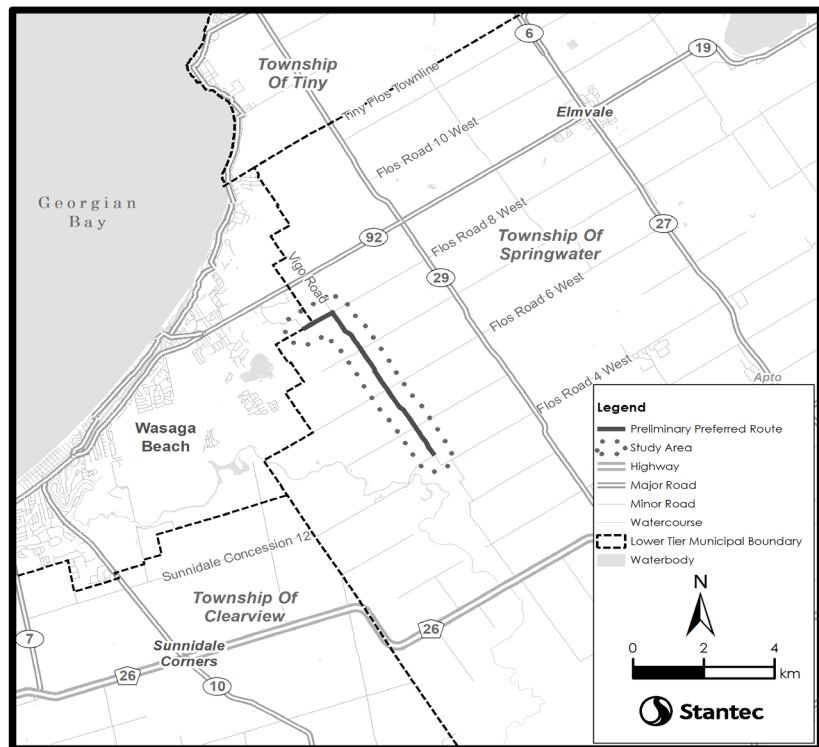

As part of the planning process, Enbridge has retained Stantec Consulting Ltd. to undertake an Environmental Study of the construction and operation of the proposed natural gas pipeline. The Environmental Study will fulfill the requirements of the Ontario Energy Board's (OEB's) *Environmental Guidelines for the Location, Construction, and Operation of Hydrocarbon Pipelines and Facilities in Ontario, 7th Edition (2016)*.

The Environmental Report for the study should be completed in December 2018, after which Enbridge will file an application for the proposed pipeline to the OEB. The OEB's review and approval is required before the proposed natural gas pipeline Project can proceed. If approved, construction of the pipeline is currently anticipated to begin in late summer 2019.

For any questions or comments regarding the Environmental Study or the proposed Project, please do not hesitate to contact the following:
