

## ARCHAEOLOGICAL ASSESSMENT

1. A Stage 1 Archaeological Assessment for the Preliminary Preferred and Alternate Pipeline Routes was completed by Archaeological Services Inc. (“ASI”) and can be found in Appendix C of the Environmental Report at Exhibit C, Tab 1, Schedule 3, Attachment 1.
2. The Stage 1 Archaeological Assessment (“AA”) was finalized on March 9, 2018 and was submitted to the Ministry of Tourism, Culture and Sport (“MTCS”).
3. The Stage 1 AA did not identify areas of archaeological potential within the defined study area, and as such, did not recommend additional archaeological assessment for the project.
4. To date the MTCS has not yet reviewed or provided acceptance of the Stage 1 AA. Should Enbridge Gas Distribution Inc. (“Enbridge”) receive any comments from the MTCS which require additional action by Enbridge, Enbridge will inform the Ontario Energy Board.
