

NOTICE OF STUDY COMMENCEMENT AND VIRTUAL OPEN HOUSE

Proposed 2021 Stratford Reinforcement Pipeline Project

Enbridge Gas

Project Overview

Enbridge Gas has retained a third-party company, GHD Limited, to conduct an environmental study for the proposed 2021 Stratford Reinforcement Pipeline Project. The project will provide additional natural gas capacity as a result of the potential demand in the area.

The project consists of two components. The first is a new 11.5 km, 12-inch pipeline, extending from the end of the 2019 Stratford Reinforcement Project at Perth Oxford Road to the Stratford Gate Station. This new pipeline is proposed to run along Perth Road 112 (or Perth Road 113) then via Perth Line 29 to Erie St. (Hwy 7), then into the Stratford Gate Station (along Crane Ave). The second, is a new 2.5 km 4-inch pipeline, extending from the existing 8-inch main on Erie St., heading south along Erie St. (Hwy 7) to Erie St. & 29th Line.

Environmental Report

GHD Ltd. is preparing an environmental report to assess the potential environmental impacts from construction and operation of the reinforcement project, and where necessary mitigation measures will be applied to avoid and/or minimize the identified impacts. The environmental report is anticipated to be completed in the summer of 2020, after which Enbridge Gas will file a Leave to Construct application to the Ontario Energy Board for approval to construct. If approved, construction is anticipated to begin in early 2021.

Virtual Open House

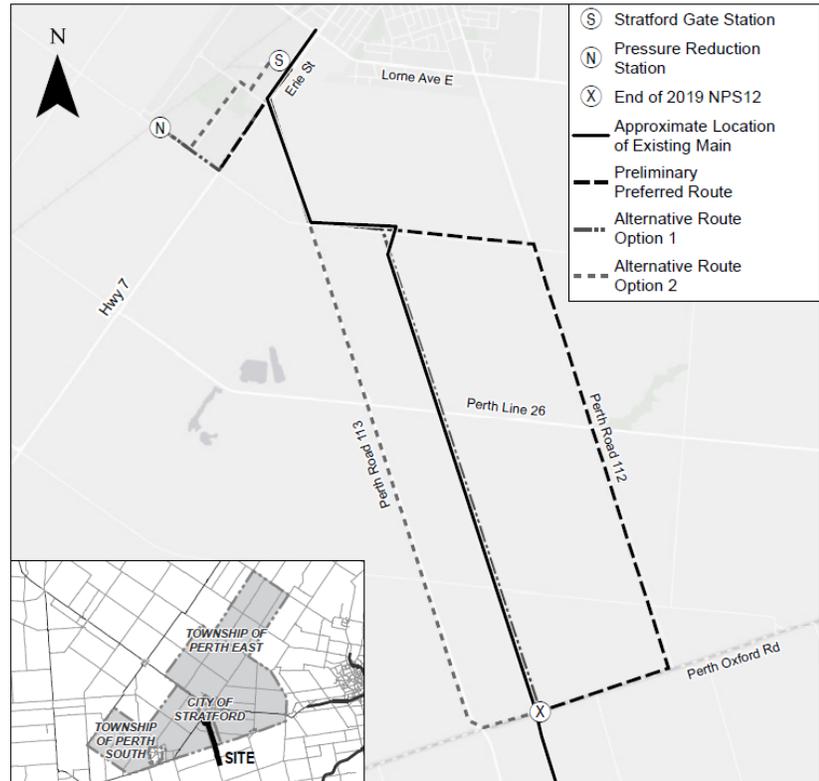

Considering the COVID-19 global pandemic and public gathering restrictions, an in-person public open house will not be possible for this project. Instead, Enbridge Gas will offer a virtual open house for two weeks. Indigenous communities, members of the public, government agencies, and other interested stakeholders are invited to participate in the virtual open house, review information about the project, and provide feedback. A copy of the material presented will also be available for download.

Consultation is an important component of the study and we want to hear from you. If you need assistance with the virtual open house or require an alternative format of the materials presented online, please contact a member of the project team below.

For any questions or comments regarding the Project, please contact:

Katrina Kroeze
Stakeholder Engagement Specialist
GHD Limited

Tanya Turk
Environmental Advisor
Enbridge Gas Inc.

You are invited to a Virtual Open House

Date: May 4, 2020 to May 18, 2020

Website: StratfordReinforcementEA2020.ca

Email: StratfordReinforcementEA2020@ghd.com

If you have issues logging-onto the Virtual Open House between May 4-18, please call 416-640-4201, leave a message and we will respond as soon as possible.
