THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY

In order to construct any works to distribute natural gas in Ontario, a person must comply with the requirements of the *Municipal Franchises Act* (Act). This Act requires that a person that intends to construct any works to supply natural gas within a municipality must first receive approval from the OEB, in the form of a certificate of public convenience and necessity (certificate). Where the OEB has issued a certificate for an area within which there is currently no natural gas distribution service, another person can apply for a certificate to construct works to supply that area.
