THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider Enbridge Gas's application. At the end of this hearing, the OEB will decide whether to grant Enbridge Gas's requests.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY

In order to construct any works to distribute natural gas in Ontario, a person must comply with the requirements of the *Municipal Franchises Act* (Act). This Act requires that a person that intends to construct any works to supply natural gas within a municipality must first receive approval from the OEB, in the form of a certificate of public convenience and necessity (certificate). Where the OEB has issued a certificate for an area within which there is currently no natural gas distribution service, another person can apply for a certificate to construct works to supply that area.
