**Re: Enbridge Gas Distribution Inc.
Leave to Construct Application - GTA Project
Ontario Energy Board Proceeding No.: EB-2012-0451 – Update No. 1**

On December 21 2012, Enbridge Gas Distribution Inc. (“Enbridge”) filed a “Leave To Construct” Application with the Ontario Energy Board (the “Board”) in respect to certain natural gas pipelines and related facilities in the Greater Toronto Area (“GTA”), known as the GTA Project. The GTA Project had a western component, referred to as Segment A and an eastern component, referred to as Segment B.

Since filing the Application, Enbridge has been engaged in discussions with Union Gas Limited (“Union Gas”) and TransCanada Pipelines Limited (“TransCanada”) to explore additional refinements to the scope of the GTA Project. These discussions were focused on ensuring the efficient development of natural gas infrastructure in and around the GTA, optimizing the use of existing natural gas infrastructure and mitigating impacts on the community, the environment and ratepayers.

As a result of these discussions, Enbridge is proposing three significant changes to Segment A of the GTA Project:

- A reduction of approximately 5 km in pipeline length as a result of moving the connection point from the Union Gas Parkway West to the TransCanada Mainline system and the relocation of corresponding facilities;
- Shared usage between TransCanada and Enbridge and an increase in pipe size to NPS 42 from NPS 36; and
- Relocation of the proposed Parkway West Gate Station, 1.5 km south of the original site, as a result of Union Gas’ Application of Parkway West (EB-2012-0433 Page 96 of 121, Section 11) dated 2013-01-29.

Enclosed are two hardcopies of the amendments to the Pre-filed evidence filed December 21, 2012. A summary of the amendments is provided at Exhibit A, Tab 2, Schedule 4.

An addition package has been included in this submission containing the non-redacted evidence along with a letter explaining the basis for the claim for confidentiality.

For further information about the GTA Project, please visit the Enbridge website at: www.enbridgegas.com/gtaproject

Please contact me if you have any questions.

Yours truly,

(Original Signed)
