

EB-2012-0451

NOTICE OF REVISED APPLICATION

Enbridge Gas Distribution Inc. has requested to revise its application for approval to build two segments of pipeline in the Greater Toronto Area

Enbridge Gas Distribution Inc. applied on December 21, 2012 to the Ontario Energy Board (OEB) for approval to construct two segments of underground natural gas pipeline and associated facilities (the "Original Application"). A Notice for the Original Application (EB-2012-0451) was issued by the OEB on March 5, 2013. On April 15, 2013 Enbridge amended the Original Application by asking the OEB to approve a methodology to establish a rate for gas transportation services for TransCanada Pipelines Limited on one of the two segments of the proposed pipelines (the "Amended Application"). A Notice of Amended Application was issued by the OEB on April 24, 2013.

On July 22, 2013, Enbridge revised its Amended Application by extending the proposed length of one of the two segments of pipeline. Enbridge now proposed that "Segment A" will begin at the Parkway West Station as opposed to Bram West interconnect. A map showing the revised route for Segment A is included.
