

ENBRIDGE GAS DISTRIBUTION INC. RESPONSE TO
COUNCIL OF CANADIANS INTERROGATORY #10

INTERROGATORY

ISSUE A.1 AND A.4

Reference: EB- 2012 – 0451, Exhibit A, Tab 3, Schedule 5, para. 29

Request:

Please provide the terms of any contractual or other supply arrangements that have been entered into, or proposed, for service on the Tennessee Gas Pipeline, National Fuel Gas Supply, and TranCanada for gas produced from the Marcellus formation.

RESPONSE

Enbridge has not entered into any contractual or supply arrangements for gas produced in the Marcellus formation and is therefore unable to provide the terms of any such contract. When procuring supply, Enbridge issues RFPs for delivered supply and does not track how gas is delivered under these contracts. Enbridge does not currently have a contract with any pipeline for Marcellus supply. Please see the response to BOMA Interrogatory #1 at Exhibit I.A1.EGD.BOMA.1 (a) for a description of the transportation service from Niagara Falls to Enbridge Parkway CDA that will commence in 2015 once the GTA Project Facilities are in service.

Witness: J. Denomy
