

ENBRIDGE GAS DISTRIBUTION INC. RESPONSE TO  
CANADIAN MANUFACTURERS & EXPORTERS INTERROGATORY #6

INTERROGATORY

Are the proposed facilities needed? Considerations may include but are not limited to demand, reliability, security of supply, flexibility, constraints, operational risk, cost savings and diversity as well as the Board's statutory objectives.

Issue A.I.

Ref: EB-2012-0451, Exhibit A, Tab 3, Schedule 1, page 11 of 14

EGD confirms that it has had ongoing discussions with TCPL which centred on bringing Marcellus Supply from Niagara using TCPL's line, increased use of TCPL's existing infrastructure in the vicinity of Parkway and coordinated planning of infrastructure east of Parkway. To this end:

- (a) Please provide all written communication, memoranda, papers or PowerPoint/slide presentations provided by TCPL to EGD, or provided by EGD to TCPL, addressing these issues;
- (b) Without limiting the foregoing, CME requests that EGD provide all written documents exchanged with TCPL that that address:
  - (i) The "Bram West" interconnection; or
  - (ii) Shared use by TCPL and EGD of the pipeline from Bram West to Albion.

RESPONSE

- a) A review of all documentation, including all internal emails, would require an inordinate amount of time that is out of proportion to the value of the exercise, but the relevant information can be found in the documents that have been produced below and in the summary found in the response to Board Staff #48 at Exhibit I.D5.EGD.STAFF.48.
