

ENBRIDGE GAS DISTRIBUTION INC. RESPONSE TO
CONSUMERS COUNCIL OF CANADA INTERROGATORY #3

INTERROGATORY

1. Are the proposed facilities needed? Considerations may include but are not limited to demand, reliability, security of supply, flexibility, constraints, operational risk, cost savings and diversity as well as the Board's statutory objectives.

Issue: A.1-CCC-3

Reference: A/T3/S1/pg.9

- a) Please provide a chart (table) which shows the main characteristics and critical risk element differences as between Short Term Firm Transport (STFT), Interruptible (IT) and Firm Transport (FT).

RESPONSE

Please see the attachment which outlines the main service attributes related to the services offered on the TransCanada Mainline. The table in the attachment was obtained from the TransCanada website. Note that the National Energy Board Decision in RH-003-2011 and TransCanada's subsequent Review and Variance Application contemplate changes to the discretionary services listed in the table. These changes increase the risk that discretionary services may not be available when required.

Witness: J. Denomy
