

ENBRIDGE GAS DISTRIBUTION INC. RESPONSE TO  
CONSUMERS COUNCIL OF CANADA INTERROGATORY #24

INTERROGATORY

5. Is the proposed timing of the various components of the projects appropriate?

A.5-CCC-24

Reference: A/T3/S8

- a) Please explain what, if any, construction is forecast to begin in December 2013.
- b) Has Enbridge ordered any of the pipe associated with this project? If not, please provide the lead times required from order to delivery.
- c) Please describe what other critical materials must be ordered and with what lead time.

RESPONSE

- (a) No construction is forecasted to begin in December of 2013.
- (b) No pipe associated with this project has been ordered by Enbridge.

The lead time required from order to delivery is 8 to 12 months.

- (c) There are certain components required for the regulator stations. The lead time is 8 to 12 months.
