

CCC INTERROGATORY #8

INTERROGATORY

Reference: Ex. C/T1/S7/p. 2

Does the amount EGD is seeking to recover with respect to the Low Income Customer Service Rules - \$.280 million – meet EGD's materiality threshold for Z-factor treatment?

RESPONSE

Within this proceeding, the Company is requesting recovery of the 2016 revenue requirement impact of costs which resulted from Low Income Customer Service Rule changes which became effective January 1, 2013. The requested recovery is consistent with the recovery of the 2013 through 2015 revenue requirement impacts recorded in prior year GDARIDAs, which were approved in the 2013 through 2015 Earnings Sharing and/or Deferral Clearance proceedings.

The Board approved GDARIDA does not have a materiality threshold.

The Company provided the same response to a similar interrogatory from CCC in the 2015 ESM proceeding, EB-2016-0142, Exhibit I.C.EGDI.CCC.4.
