

FRPO INTERROGATORY #14

INTERROGATORY

REF: Exhibit C, Tab 1, Schedule 5

Preamble: We are interested in ensuring that all costs that are requested for recovery from the implementation of the Carbon, Cap and Trade regime are not also contributing to a reduction in Earnings Sharing.

Please confirm that the \$0.840 million requested for recovery has been removed from the O&M costs that contribute to the determination of Earnings Sharing.

RESPONSE

The Company presumes that the exhibit reference is meant to be Exhibit C, Tab 1, Schedule 11, which shows a 2016 GGEIDA balance of \$0.840 million.

Enbridge confirms that the existence of the amount being resident in the deferral account means that there has been no expensing of the amount within O&M and / or resulting earnings for the determination of earnings sharing.
