

ENBRIDGE GAS DISTRIBUTION INC. AND UNION GAS LIMITED

Undertaking of Mr. Kitchen
To Mr. Quinn

REF: Tr.3 p.42.

To advise whether dehydration facilities were used to serve EGD in 2007

Response:

Dehydration facilities were in service and being used by EGD in 2007 at the time of the NGEIR decision. EGD has been charged a market based rate for dehydration services since the implementation of the NGEIR decision in 2008. The costs associated with providing dehydration service are charged to Union's non-utility storage business.
