

ENBRIDGE GAS DISTRIBUTION INC. AND UNION GAS LIMITED

Undertaking of Mr. Redford
To Mr. Quinn

REF: Tr.3 p.18.

To advise what percentage of direct purchase deliveries that Union is counting on for their peak day are obligated.

Response:

Based on the 2017/18 Gas Supply Plan, 64% of direct purchase deliveries at Dawn are obligated. Union counts on 100% of these deliveries on a design day.

The remaining 36% of direct purchase deliveries at Dawn are non-obligated and delivered by the non-obligated customer to match that customer's consumption each gas day. On a design day Union assumes that non-obligated customers consume and that the corresponding deliveries are made at Dawn.
