

ENBRIDGE GAS DISTRIBUTION INC. AND UNION GAS LIMITED

Undertaking of Mr. Kacicnik
To Mr. Quinn

REF: Tr.3 p.44.

To clarify base load factors and heat-sensitive load.

Response:

The method of setting baseload profiles for EGD's general service customers discussed in response to FRPO Interrogatory #20 (Exhibit C.FRPO.20) was approved by the Board in EBRO 473 (1992). The baseload profile is seasonal. EGD has used the methodology consistently since 1992.

The Applicants observe that changes to the profiles and/or normalization methodologies would require Board approval.
