

CBA INTERROGATORY #9

INTERROGATORY

2. Cost Consequences:

2.2. Is the methodology to set services fees for the RNG Enabling Program – Injection Service reasonable and appropriate?

REF: Exhibit B/Tab 1 Schedule 1 page 18

PREAMBLE:

*The RNG producer will be charged separate service fees for each of the two services offered by the Company. Each service fee will be derived from a discounted cash flow (“DCF”) analysis. The DCF analysis will be based on the principles and parameters set out in the OEB’s EBO 188 feasibility guideline. The fee for each service (Upgrading or Injection) will be site specific and set so as to recover operating and maintenance costs, depreciation, utility’s return on investment, and taxes while achieving a PI equal to or greater than 1.0 over the service life of the plant. Enbridge will charge a levelized (constant) service fee for each month of the term of the contract.*

Please confirm that it is EGD’s proposal to fix the monthly charge for RNG Enabling Program services at the outset of the relevant contract, and that the monthly charge is not proposed to change for the duration of the contract. If not confirmed, please explain how EGD intends to modify the monthly charge throughout the term of the contract.

RESPONSE

Enbridge confirms that it is its proposal to fix the monthly charge for RNG Enabling Program services at the outset of the relevant contract, and that the monthly charge is not proposed to change for the duration of the contract. Please also see response to Board Staff Interrogatory #9(c), filed at Exhibit I.2.EGDI.STAFF.9 and APPrO Interrogatory #5(d), filed at Exhibit I.2.EGDI.APPrO.5.
