

SEC INTERROGATORY #53

INTERROGATORY

[B/6/5, p. 7] Please advise whether, as far as the expert is aware, self-report surveys are still used in all jurisdictions that do not have deemed NTG values. If that is no longer the case, please provide details of the changes.

RESPONSE

Self-report surveys are widely used, specifically for the C&I sector, but the Navigant team can't state with certainty that the method is used in all states that don't have deemed savings.
