

ENBRIDGE GAS INC.
Answer to Interrogatory from
Board Staff (STAFF)

Reference: USP - Exhibit C1/Tab 1/ Schedule 1/ pgs. 46-47

Question:

Enbridge Gas has indicated that the AMPs were built using guidance from the OEB's filing requirements for natural gas distributors. Further guidance was obtained through the more detailed Chapter 5 of the filing requirements for electric distributors. Table 5 provides the alignment of sections that comprise each of Enbridge Gas Distribution's and Union Gas' AMPs to the Chapter 5 requirements.

Going forward, does Enbridge Gas plan to align Section 5.0 of overall USP to be the same format and content as outlined in Chapter 5 of the filing requirements. In particular to comply with Section 5.3 "Asset Management Process", specifically sub-sections 5.3.1, 5.3.2, 5.3.3 and 5.3.4?

Response

Enbridge Gas is still assessing its future asset management process and will create an asset management plan with industry best practice and OEB filing requirements in mind. Any future asset plan will be compliant with the intent of the "Chapter 5 Consolidated Distribution System Plan" document.
