Question:

Please provide a table showing distribution bill impacts for a non-residential customer (such as a school) with 40,000 m³ annual consumption in each of rates Union 01 and M1, and EGD 6. If an expansion of Table 11 would accomplish that that is acceptable. Please provide all supporting calculations, in Excel format.

Response

Please see Table 1. The supporting calculation has been attached and filed in excel format as Exhibit I.SEC.1, Attachment 1.

Table 1
