Reference: One-Time Adjustment of Capital Pass-Through Projects; Exhibit B1, Tab 1, Schedule 1, p26; Exhibit F1, Tab 2, Rate Order, Schedule 16, pp4-5

Question:

Please provide the underlying calculation to support EGD's proposed one-time adjustment to rates "in lieu of continuing to make Y-factor adjustments to the revenue requirement of the Projects during the 2019-2023 deferral rebasing period". What would be the annual adjustments over the 2019-2023 period if the one-time payment approach were not used?

Response

Please see Exhibit F1, Tab 2, Rate Order, Schedule 16, pages 4 to 5 for the calculation supporting the one-time adjustment for Union's capital pass-through projects.

Please see Exhibit I.SEC.6, Attachment 1 for the 2019-2023 forecast annual revenue requirement of Union's capital pass-through projects.
