

BOMA INTERROGATORY #2

INTERROGATORY

Ref: Exhibit C1, Tab 2, Schedule 1, p13

How many contract customers were "lost"? What does "lost" mean in this context? What volumes do they represent, and how was it calculated?

RESPONSE

The 2018 Contract volume budget is lower than the 2017 Contract volume budget by  $48.2 \times 10^6 \text{m}^3$  as a net result of (1) the loss of three customers (amounting to a decline of  $52.6 \times 10^6 \text{m}^3$ ), partially offset by (2) the addition of two new contract market customers (increased volume of  $4.4 \times 10^6 \text{m}^3$ ). Customers were lost due to plant shutdown or relocation of their operations to other areas.

The volumetric detail is shown further at Exhibit C3, Tab 2, Schedule 3, page 3, column 6 and column 9, line 4.

Witness: M. Suarez
