

BOMA INTERROGATORY #21

INTERROGATORY

Ref: Ibid, p18

Please provide examples of "hybrid services" combining aspects of physical and synthetic storage. Please explain how each one works to provide enhanced operational flexibility to the company.

RESPONSE

The section of the evidence that refers to "hybrid services" is as follows:

Other gas supply arrangements with a counter party can have service attributes that are a hybrid of supply exchanges and peaking supplies. These hybrid services can offer enhanced operational flexibility to the Company.
(emphasis added)

For a discussion about the "hybrid services", please see response to FRPO Interrogatory #10, at Exhibit ID1.EGDI.FRPO.10.

Witness: D. Small
