

CME INTERROGATORY #1

INTERROGATORY

Ref: Exhibit D2, Tab 2, Schedule 1, page 3 of 5

At page 3, EGD states that "the Company has performed an analysis which shows that the actual Rider D amounts credited to ratepayers to date, plus the forecast amounts expected to be credited to ratepayers for the remainder of 2017, will result in a total of approximately \$383.8 million that will have been returned to ratepayers by the end of 2017."

CME wishes to better understand the analysis that the company performed. If the analysis is already part of the evidence, please provide a reference to where it can be found. If the analysis is not already part of the evidence, please provide it. If possible, CME would like EGD to provide an analysis that will quantify the impact of the individual drivers of the variance between the forecast amount and the actual amount returned, as well as the offsetting factors mentioned by EGD in paragraph 9 at page 3 of 5.
