

ENBRIDGE GAS INC.
Answer to Interrogatory from
Board Staff (STAFF)

Reference: Exhibit C1/ Tab 1/ Schedule 1/ Section 4.2/ pg. 35 and Exhibit C1/ Tab 2/
Schedule 1/ pg. 66

Question:

Enbridge Gas notes that Enbridge Gas Distribution and Union Gas have unique investment categories. These categories have been mapped in Table 2 to the four general investment categories outlined in Chapter 5 of the Filing Requirements for Electricity Applications. In the Enbridge Gas Distribution AMP, nine asset classes (**Figure 4.1-2**) are used to categorize and manage investment decisions. Each asset class has its own asset class manager and asset class director. Both roles are responsible for understanding the operational risks and opportunities associated with their respective asset class and managing the portfolio of work to ensure risk is managed to the lowest practicable level and optimum value is realized.

- a) In order to clarify cost significance of each asset class, please provide a table in which the overall Enbridge Gas Distribution expenditures (Capital and O&M) for each asset class are shown?
- b) Please also indicate in the table the predominant Chapter 5 investment category for each asset class (System Access, or System Renewal, or System Service, or General Plant)?

Response

- a) & b) Please refer to Exhibit I.BOMA.22 for capital expenditures. O&M expenditures are not summarized in the Asset Management Plan.
