

ENBRIDGE GAS INC.
Answer to Interrogatory from
Federation of Rental-housing Providers of Ontario (FRPO)

Reference: Exhibit B1 / Tab 2 / Schedule 1/ page 18-20

Preamble: EGI evidence states: *Given the magnitude of the \$95.3 million investment in the Sudbury Replacement project, incremental funding of the project is required. The cumulative revenue requirement of the project from 2018 through 2023 is over \$47 million. Union was not able to reprioritize 2018 Capital investment in order to fund this investment using existing rates. The purpose of the capital pass through mechanism was to provide a means for Union to make significant investments under its price cap plan. Given that the timing of the investment in the Sudbury Replacement project occurred in late 2018, Enbridge Gas will be impacted by the first full year revenue requirement in 2019, during which time the Incremental Capital Module will apply.*

Question:

When was the need for the Sudbury Replacement first identified?

Please provide all internal reports and correspondence that pertain to the need and the timing for replacement.

Response

Enbridge Gas declines to provide the requested information.

The identification of the need for the Sudbury Replacement can be found on pages 3, 4 5 and 6 of the pre filed evidence in the EB-2017-0180 proceeding. The Board approved the Sudbury Replacement project LTC on September 28, 2017.
