

Enerline Dashboard

The screenshot shows the Enerline dashboard interface. At the top, there is a navigation bar with links for Contracts, Nominations, Measurements, Reports, Invoices, Support, and Tutorials. Below this is a header section for the current company, 'Enerline Company'. The main dashboard area contains several widgets:

- Messages Gadget (1):** Shows unread messages categorized by type, such as 'Notification - 20' and 'Broadcast - 5'.
- Operational Status Gadget (2):** Displays the status of transportation and storage segments for each day from May 18 to May 21, 2021.
- Name Changes Gadget (3):** Shows a list of name change mismatches for the current and next day.
- Nomination Status Gadget (4):** Displays the status of the most effective nomination for each gas day, showing 'Pending/Used' counts for May 19 and May 20.
- Contract Notification Gadget (5):** Lists new and updated contracts for the period from May 19, 2021, to June 1, 2021.
- Measurement Gadget (6):** A calendar view for May 2021 showing measurement data for each day, with green indicating reported data and red indicating missing data.
- T Serv Authorized Overrun Gadget (7):** A table showing whether T-Service overrun activity is authorized or unauthorized for a rolling four-day period.
- Balance Gadget (8):** A line chart showing the contract account balance over a 30-day period, with a vertical line indicating the current date.

 At the bottom of the dashboard, there are three buttons: 'Add Gadget' (9), 'Reorder Gadgets' (10), and 'Preferences' (11).

- Messages Gadget** displays unread message board messages by category for the time period of your choice. Select the date range by using the filter at the top of the gadget.
- Operational Status Gadget** displays the status of each segment of Enbridge transportation and storage. Additional details are available by clicking the 'more info' button at the bottom of the gadget.
- Name Changes Gadget** displays the list of name change mismatches for current day and next day grouped by nomination cycle.
- Nomination Status Gadget** displays the status of the most effective nomination(s) for each gas day.
- Contract Notification Gadget** displays any new contracts or updates to existing contracts from the current day until the first day of the next month.
- Measurement Gadget** displays measurement for the month at the meter level including a count of how many meters are reported. The days displayed in green indicate measurement data has been reported for all meters. The days displayed in red indicate measurement data is missing from one or more meters. A triangle will appear when the measurement data missing is different from the previous day. Click any day on this gadget to see the meter measurement for that day.
- T Service Authorized Overrun Gadget** displays whether T-Service overrun activity is authorized or unauthorized for a rolling four-day period. This gadget will display if you have a South T Service contract.
- Account Balance Gadget** displays your contract account balance over a 30-day period. An Account Balance gadget can be added for each contract.
- Add Gadget Button** allows you to add a gadget to your dashboard.
- Reorder Gadget Button** allows you to change the order of the gadgets on your dashboard.
- Preferences Button** allows your co-workers to copy gadgets from your dashboard or to import your co-workers' gadgets to your dashboard.
