2 Auto Fill X

1. **Disable Auto Fill / Enable Auto Fill Button** toggles to allow you to copy the same number across the rest of the hours available by automatically filling in those numbers. When **Disable Auto Fill** is displayed, enabling the auto fill feature is in effect. When **Enable Auto Fill** is displayed, this feature is currently turned off and you would need to click the button to activate it.

2. To use autofill, simply type the number you want in the total column. When you have entered the number, the AutoFill option will appear over that number. If you click this option, it will populate the rest of the available fields with that number. If you don't want to do this, you can click the 'x' beside the option to close it.
