

Transportation Service Customer Notice - Rate 115

January 2019

Natural gas prices have changed

The Ontario Energy Board (“OEB”) has approved changes to Enbridge Gas’ charges effective January 1, 2019. On average these changes will amount to a decrease of approximately 9 per cent annually due to lower natural gas prices in North America.

The effect on your bill will depend on how much natural gas your organization uses and the terms of your gas marketer agreement.

The price you pay for the natural gas you use, shown as the Gas Supply Charge on your bill, depends on the terms of your agreement with your gas marketer.

Your current bill has been calculated using the new approved rates for gas consumed from January 1, 2019. The rate chart is included in this notice.

Delivery to You

The ‘Delivery to You’ charge has increased due to higher delivery related costs.

Load Balancing Charge

The Load Balancing Charge has decreased due to lower seasonal load balancing related costs.

Transportation to Enbridge

A ‘Transportation to Enbridge’ charge will appear in the top Enbridge section of your gas charges

If Enbridge provides transportation service from Western Canada and the United States to our distribution system in Ontario, the ‘Transportation to Enbridge’ charge has decreased due to lower costs for transporting natural gas to Ontario.

If Enbridge provides transportation service from the Dawn market hub in southwestern Ontario to our distribution system in Ontario, the ‘Transportation to Enbridge’ charge has increased due to higher costs for transporting natural gas from Dawn. In this case, your marketer either provides transportation service for your gas supply to the Dawn market hub or purchases gas supply at the Dawn market hub. The rate you pay for transportation and/or gas supply from your marketer is based on the terms of your gas marketer agreement and these charges will appear in the market section of your gas charges.

Cost Adjustment

The current cost adjustment includes a charge of 0.0649 ¢/m³ for Load Balancing and a charge of 0.0117 ¢/m³ for Transportation. This cost adjustment is in effect until December 31, 2019.

Our supply prices are based on a forecast of market prices for the next 12 months. The forecasted prices are reviewed every three months and adjusted accordingly. If our forecasts are over or under our actual costs, the difference is refunded or collected from customers through cost adjustments.

Rate Adjustment

The OEB has also previously approved a Rate Adjustment to reflect the difference between the amount you paid for volumes consumed from January 1, 2017 to December 31, 2017 and the actual costs incurred. The total amount of the adjustment will be appear on your January bill.

Transportation from Enbridge: A credit of 0.0262 ¢/m³

Transportation from a Marketer: A credit of 0.0384 ¢/m³

For Further Information

Enbridge Gas appreciates the opportunity to serve you and looks forward to the continuation of our business relationship. If you require further information with respect to this change, please call 1-855-311-2LBA (1-855-311-2522) or visit our website at: www.enbridgegas.com.
