

Transportation Service Customer Notice - Rate 115

October 2018

Natural Gas Prices Have Changed

The Ontario Energy Board (“OEB”) has approved changes to Enbridge Gas Distribution’s charges effective October 1, 2018. On average these changes will amount to an increase of approximately 3 per cent annually due to higher natural gas prices in North America.

The effect on your bill will depend on how much natural gas your organization uses and the terms of your gas marketer agreement.

The price you pay for the natural gas you use, shown as the Gas Supply Charge on your bill, depends on the terms of your agreement with your gas marketer.

Your current bill has been calculated using the new approved rates for gas consumed from October 1, 2018. The rate chart is included in this notice.

Delivery to You

The ‘Delivery to You’ charge has increased due to higher delivery related costs.

Due to the cancellation of the cap and trade program, effective October 1, 2018, cap and trade costs will be removed from the Delivery to You charge on your bill.

Enbridge has tracked all costs related to cap and trade. On an interim basis, the OEB has approved a Cap and Trade Clearance refund or charge to reflect the difference between the amount customers paid and our actual costs. This refund or charge will be included in the Delivery to You on your October bill. If you are a customer who is a Non-Large Final Emitter you will receive a cap and trade refund of 6.5297 ¢/m³. If you are a Large Final Emitter you will be refunded 0.1332 ¢/m³. The effect on your bill will depend on how much natural gas your organization uses.

For more information on cap and trade, visit enbridgegas.com/capandtrade.

Load Balancing Charge

The Load Balancing Charge has increased due to higher seasonal load balancing related costs.

Transportation to Enbridge

A ‘Transportation to Enbridge’ charge will appear in the top Enbridge section of your gas charges.

If Enbridge provides transportation service from Western Canada and the United States to our distribution system in Ontario, the ‘Transportation to Enbridge’ charge has increased due to higher costs for transporting natural gas.

If Enbridge provides transportation service from the Dawn market hub in southwestern Ontario to our distribution system in Ontario, the ‘Transportation to Enbridge’ charge has remained unchanged. In this case, your marketer either provides transportation service for your gas supply to the Dawn market hub or purchases gas supply at the Dawn market hub. The rate you pay for transportation and/or gas supply from your marketer is based on the terms of your gas marketer agreement and these charges will appear in the marketer section of your gas charges.

Please See Over >

Cost Adjustment

The current cost adjustment includes a charge of 0.0512 ¢/m³ for Load Balancing and a refund of 0.0462 ¢/m³ for Transportation. This cost adjustment is in effect until September 30, 2019.

Our supply prices are based on a forecast of market prices for the next 12 months. The forecasted prices are reviewed every three months and adjusted accordingly. If our forecasts are over or under our actual costs, the difference is refunded or collected from customers through cost adjustments.

Rate Adjustment

The OEB has also previously approved a Rate Adjustment to reflect the difference between the forecast costs for energy conservation programs from 2015 and the actual costs. This adjustment will be a refund of 0.0644 ¢/m³ which will appear on your October bill.

For Further Information

Enbridge Gas Distribution appreciates the opportunity to serve you and looks forward to the continuation of our business relationship. If you require further information with respect to this change, please call 1-855-311-2LBA (1-855-311-2522) or visit our website at: www.enbridgegas.com.
