

Large Volume Customer Notice - Rate 100

April 2019

Natural Gas Prices Have Changed

The Ontario Energy Board (“OEB”) has approved changes to Enbridge Gas’ charges effective April 1, 2019. On average these changes will amount to a decrease of approximately 8 per cent annually. The decrease is due to lower natural gas prices in North America. The effect on your bill will depend on how much natural gas your organization uses.

Your current bill has been calculated using the new approved rates for gas consumed from April 1, 2019. The rate chart is included in this notice.

Our supply prices are based on a forecast of market prices for the next 12 months. The forecasted prices are reviewed every three months and adjusted accordingly. If our forecasts are over or under our actual costs, the difference is refunded or collected from customers through cost adjustments.

Gas Supply Charge

The Gas Supply charge has decreased from 12.4577 cents per cubic metre (¢/m³) to 10.7122 ¢/m³.

The Gas Supply component of the Cost Adjustment is currently a charge of 1.2169 ¢/m³. This charge, combined with the Gas Supply Charge, results in a new total effective Gas Supply rate of 11.9291 ¢/m³.

Enbridge Gas does not make a profit on the price of natural gas.
