

It's good to have choices

Enbridge Gas Ohio's Energy Choice program helps you compare natural gas options.

The Energy Choice program allows you to pick your own supply option—and even choose not to make any choice at all and still receive natural gas. Eligible customers can participate in one of the following three ways:

1. Review the supplier options and choose the offer that's best for you.
2. Join a community buying program, or aggregation, if one is available in your area.
3. Or choose not to make a choice—and receive natural gas from an approved supplier.

Already made a choice? Then you don't have to do a thing until you decide it's time to review your options.

Visit **energychoice.enbridgegas.com** to learn more. We also recommend comparing Energy Choice offers by visiting the Public Utilities Commission of Ohio (PUCO) energychoice.ohio.gov website. Other valuable resources include the PUCO website (puco.ohio.gov) and the Ohio Consumers' Counsel website (pickocc.org).
