- **Optional Assignment of Upstream Capacity Charge** - Upstream Pipeline Primary Firm Transportation capacity and/or Contract Storage capacity made available by East Ohio may be assigned to Supplier upon its request and will be structured as a release of capacity at the full maximum rates paid by East Ohio, in accordance with Paragraphs 4.1 and 4.4 of the ECPS General Terms and Conditions.
- **On-System Storage Transfer** - Supplier shall purchase from or sell to East Ohio On-System Storage volumes in place in amounts necessary to attain required On-System storage inventory levels pursuant to Section 5 of the ECPS General Terms and Conditions. The transfer price shall equal the first of the month price index as published in *Inside F.E.R.C.'s Gas Market Report* (S&P Global Platts) for Eastern Gas, Appalachia, or an appropriate successor index should it cease to be published, for the month in which the purchase or sale takes place plus the 100% load factor cost of transportation on Eastern Gas Transmission and Storage, Inc. (EGTS) to East Ohio's city gate. Such price shall be adjusted by the Unaccounted-for Gas Percentage, the conversion to Mcf pursuant to Paragraph 7.2 of the ECPS General Terms and Conditions, and associated excise tax if applicable.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE**AUTHORIZATIONS AND CONTRACT TERM****1. GOVERNMENTAL AUTHORIZATIONS**

- 1.1 East Ohio and Supplier agree that they will file, as soon as practical after execution of the Agreement, all necessary applications with the appropriate governmental authorities for the purpose of securing all requisite authorizations, if any, for service contemplated by the Agreement, and that they will provide each other from time to time such information as may be necessary to secure and maintain such authorizations.
- 1.2 Supplier shall provide East Ohio with a copy of the PUCO-issued certification obtained in accordance with OAC Chapter 4901:1-27.
- 1.3 In the event governmental approval of the Agreement is conditioned in any manner, either party may, within thirty (30) days of such event, elect to terminate the Agreement by giving the other fifteen (15) days' prior written notice, and upon such termination neither party shall have any liability or obligation to the other by reason of the Agreement other than the obligation to make payments as provided for herein with respect to events or transactions that have occurred prior to the termination date.
- 1.4 If the transactions provided for under the Agreement at any time subject either party to the jurisdiction of or regulation by the FERC, or subject Supplier to the jurisdiction of the PUCO, to an extent greater than any which exists on the date of the Agreement, whether by reason of statutory, regulatory or judicial action, then either party may elect to terminate the Agreement in the manner provided for in Paragraph 1.3 hereof, provided, however, that termination shall not relieve either party of its obligations hereunder with respect to events or transactions that have occurred prior to the termination date.

2. TERM

- 2.1 The Agreement shall be effective from the date specified in the Agreement for a primary term of twelve (12) months and shall continue thereafter subject to cancellation by either party on sixty (60) days' prior written notice to the other, provided, however, that termination shall not relieve either party of its obligations hereunder with respect to events or transactions that have occurred prior to the termination date.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE**SUPPLY SOURCES AND CAPACITY ASSIGNMENT****3. SOURCES OF SUPPLY AND CAPACITY**

- 3.1 Subject to the terms and conditions of the Agreement, East Ohio agrees to receive, for Supplier's account, Transportation Volumes (including Contract Storage), Production Volumes, Storage Volumes and/or Pool-to-Pool Volumes.
- 3.2 In determining Daily Available Volumes, Transportation Volumes and Production Volumes shall be adjusted by an appropriate Unaccounted-for Gas Percentage as they are received by East Ohio. For purposes of determining On-System Storage inventory volumes, this Unaccounted-for Gas Percentage shall be deemed to have been applied to volumes nominated for injection into On-System Storage.
- 3.3 Supplier must hold sufficient supply and/or capacity rights to meet 91.75% of its End Use Customers' design day requirements for the November through March period. Supplier may obtain such rights from East Ohio or secure Comparable Capacity from another source. East Ohio shall assign On-System Storage capacity to Supplier based on the pro rata share of such storage allocable to Supplier's End Use Customers. Such On-System Storage shall be deemed comparable for purposes of assessing Supplier's supply and/or capacity rights. Supplier may request additional supply and/or capacity rights from East Ohio which can be used to satisfy some or all of the Comparable Capacity requirement. If Supplier secures supply and/or capacity rights from another source to satisfy the Comparable Capacity requirement, East Ohio shall have the right to review those terms of Supplier's agreement(s) with the other source(s) necessary to assure the reliability of those rights.
- 3.4 The priority of service for the Comparable Capacity shall be no less than that required by East Ohio for the purpose of serving its Core Sales Demand. The primary delivery point of the Comparable Capacity used to deliver Transportation Volumes (including Contract Storage) shall be at East Ohio's interconnection with the Upstream Pipeline(s). Production Volumes may be used to satisfy some or all of the Comparable Capacity requirement. The adequacy of design day coverage shall be determined by the ability of the Supplier to meet the estimated design day requirements of its End Use Customers.

4. ASSIGNMENT OF UPSTREAM CAPACITY

- 4.1 Subject to Section 4.3 of these General Terms and Conditions, Upstream Pipeline Primary Firm Transportation capacity not needed for operational balancing

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

purposes shall be made available by East Ohio on a pro rata basis. The assignment shall be structured as a release of capacity at the full maximum rates paid by East Ohio. The standard term of the release shall be through the earlier of March 31, 2010, or the termination date of the contract(s) between East Ohio and the Upstream Pipeline as adjusted for any seasonal or annual variations in the capacity rights provided by such contract(s). East Ohio shall retain all rights of first refusal that accompany such capacity upon contract termination. Supplier may request alternate arrangements which East Ohio shall evaluate in terms of the potential impact on reliability and stranded costs. In the event that any such capacity remains unreleased after first being made available to Suppliers on a voluntary basis, Supplier shall be required to accept a pro rata release of such capacity.

- 4.2 In order to ensure adequate deliveries into East Ohio's Ashtabula market area, Suppliers shall be obligated to accept a release of the associated Tennessee Gas Pipeline ("Tennessee") and corresponding downstream Eastern Gas Transmission and Storage, Inc. ("EGTS") capacity needed to serve that area on a pro rata basis. The amount of Tennessee and corresponding downstream EGTS capacity to be released will be adjusted each Summer and Winter Period or monthly in the case of material changes in pro rata market shares. If the pro rata amount of capacity that would be released to the Supplier is de minimus, East Ohio shall not require Supplier to accept the release. Because Tennessee deliveries to the Cochran, Pennsylvania interconnection must be delivered to East Ohio through EGTS, only the EGTS portion of the release shall count towards the Supplier's comparable capacity requirement.
- 4.3 Notwithstanding any other provision of these General Terms and Conditions, Suppliers serving any Customer in the Ashtabula Area that initiates or increases consumption after Upstream Pipeline facilities of RH energytrans, LLC or its successor companies ("the Risberg Line") are placed into service are required to accept a release of firm transportation capacity held by East Ohio on the Risberg Line based on East Ohio's estimate of their incremental peak day usage. In the event Supplier does not accept such capacity and utilize it to serve Customers' incremental load in the Ashtabula Area, East Ohio shall have no obligation to serve such load and may remove the Customers from Supplier's Pool. Service to individual Customers with an incremental peak-day load of less than 5 Mcf/day shall be exempt from this provision if (a) sufficient capacity is available from other sources, (b) the cumulative impact of such exemptions does not materially affect the reliability of service to the Ashtabula Area, and (c) the individual Customer is not among a group of such Customers (e.g., a housing development or commercial park) that together exceed the threshold for exemption.
- 4.4 The Primary Firm Transportation capacity released pursuant to Paragraphs 4.1, 4.2, and 4.3 shall be recallable in the event of a material decrease in Supplier's Energy

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

Choice market share or upon Supplier's failure to comply with the terms and conditions set forth in these General Terms and Conditions. Particular emphasis shall be placed on Supplier compliance with the Reconciliation of Daily Imbalance Volumes (Section 18 of these General Terms and Conditions), OFOs (Section 21) and Standards of Conduct (Section 24). If Supplier's End Use Customers return to system supply, East Ohio shall have the right to recall such Primary Firm Transportation capacity released pursuant to Paragraph 4.1 as may be needed to meet the estimated design day requirements of the returning End Use Customers.

- 4.5 Contract Storage capacity and related storage demand/deliverability not needed for operational balancing purposes shall be made available by East Ohio on a pro rata basis. The assignment shall be structured as a release of capacity at the full maximum rates paid by East Ohio. The standard term of the release shall be through the earlier of March 31, 2010 or the termination date of the contract(s) between East Ohio and the Upstream Pipeline as adjusted for any seasonal or annual variations in the capacity rights provided by such contract(s). East Ohio shall retain all rights of first refusal that accompany such capacity upon contract termination. Supplier may request alternate arrangements which East Ohio shall evaluate in terms of the potential impact on reliability and stranded costs. In the event that any such capacity remains unreleased after first being made available to Suppliers on a voluntary basis, Supplier shall be required to accept a pro rata release of such capacity.
- 4.6 The Contract Storage capacity released pursuant to Paragraph 4.5 shall be recallable in the event of a material decrease in Supplier's aggregate end user demand or upon Supplier's failure to comply with the terms and conditions set forth in these General Terms and Conditions. Particular emphasis shall be placed on Supplier compliance with the Reconciliation of Daily Imbalance Volumes (Section 18 of these General Terms and Conditions), OFOs (Section 21) and Standards of Conduct (Section 24). If Supplier's End Use Customers return to system supply, East Ohio shall have the right to recall such Contract Storage capacity released pursuant to Paragraph 4.5 as may be needed to meet the estimated design day requirements of the returning End Use Customers. If East Ohio recalls such capacity, it shall purchase the associated amount of Supplier's Contract Storage inventory in place. The purchase price shall equal the first of the month price index as published in *Inside F.E.R.C.'s Gas Market Report* (S&P Global Platts) for Eastern Gas, Appalachia, or an appropriate successor index should it cease to be published, for the month in which the purchase takes place.
- 4.7 Supplier's failure to accept a required release of Upstream Capacity or pay Upstream Pipeline for any Firm Transportation or Contract Storage capacity released pursuant to this Section may be deemed to be a material default within the

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

meaning of OAC Rule 4901:1-13-14(J) and may be grounds for East Ohio requesting suspension or termination of the Agreement pursuant to OAC Rule 4901:1-13-14(J)(2).

- 4.8 The capacity released pursuant to Section 4 may be revised in the event of a material change in a Supplier's aggregate Customer demand. Any recalled capacity shall be made available to all Standard Service Offer, Standard Choice Offer and Energy Choice suppliers pursuant to the provisions set forth elsewhere in Section 4.

5. ASSIGNMENT OF ON-SYSTEM STORAGE CAPACITY

- 5.1 On-System Storage capacity and related storage demand/deliverability shall be assigned to the Supplier based on the pro rata share of such storage allocable to Supplier's End Use Customers. The costs associated with such capacity shall be recovered in the volumetric rates paid by End Use Customers under the ECTS and LVECTS rate schedules and shall not be the direct responsibility of the Supplier. The initial assignment shall commence the first month in which the Supplier renders commodity service to the End Use Customer and shall terminate the last month in which the Supplier renders commodity service to the End Use Customer on whose behalf the capacity had been assigned.
- 5.2 Supplier shall comply with the Summer Period storage injection schedule set forth in paragraph 13.8 of these General Terms and Conditions. Compliance may be achieved by: (1) modified On-System Storage injections and/or (2) On-System Storage inventory transfers to and from storage accounts of other Suppliers. East Ohio shall use its best efforts to accommodate Supplier requests for over-injections above the firm injection rights specified in Section 13 of these General Terms and Conditions. East Ohio shall accommodate Supplier's On-System Storage inventory transfer requests to the extent permitted under the respective pooling and storage service provisions. If, notwithstanding its best efforts, Supplier is unable to attain the specified On-System Storage inventory levels, Supplier shall purchase from or sell to East Ohio On-System Storage volumes in place in an amount necessary to attain such inventory. East Ohio may, at its option, purchase or sell volumes above the minimum level needed to achieve compliance if requested by Supplier, or if needed to meet operational requirements. The transfer price shall equal the first of the month price index as published in *Inside F.E.R.C.'s Gas Market Report* (S&P Global Platts) for Eastern Gas, Appalachia, or an appropriate successor index should it cease to be published, for the month in which the purchase or sale takes place plus the 100% load factor cost of transportation on EGTS to East Ohio's city gate. Such price shall be adjusted by the Unaccounted-for Gas Percentage, the conversion to Mcf pursuant to Paragraph 7.2 of these General Terms and

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

Conditions, and associated excise tax if applicable. On-System Storage volumes purchased from East Ohio shall be credited to Supplier's inventory for nomination purposes only. Title and possession shall remain with East Ohio until payment for such purchase is received from Supplier, at which time title and possession shall transfer to Supplier.

- 5.3 Supplier shall attain a first of month On-System Storage inventory level consistent with the ranges set forth in Paragraph 13.12 of these General Terms and Conditions. Supplier may achieve such a level by (1) On-System Storage inventory transfers to and from storage accounts of other Suppliers or (2) a purchase from or sale to East Ohio of On-System Storage volumes in place in an amount necessary to attain such inventory. East Ohio may, at its option, purchase or sell volumes above the minimum level needed to achieve compliance if requested by Supplier, or if needed to meet operational requirements. The transfer price shall equal the first of the month price index as published in *Inside F.E.R.C.'s Gas Market Report* (S&P Global Platts) for Eastern Gas, Appalachia, or an appropriate successor index should it cease to be published, for the month in which the purchase or sale takes place plus the 100% load factor cost of transportation on EGTS to East Ohio's city gate. Such price shall be adjusted by the Unaccounted-for Gas Percentage, the conversion to Mcf pursuant to Paragraph 7.2 of these General Terms and Conditions, and associated excise tax if applicable. On-System Storage volumes purchased from East Ohio shall be credited to Supplier's inventory for nomination purposes only. Title and possession shall remain with East Ohio until payment for such purchase is received from Supplier, at which time title and possession shall transfer to Supplier.
- 5.4 The On-System Storage assignment made pursuant to Paragraph 5.1 shall be withdrawn only under the following circumstances: (1) the End Use Customer on whose behalf the capacity has been assigned is no longer served by the Supplier or (2) the Supplier has failed to comply with the terms and conditions set forth in these General Terms and Conditions. Particular emphasis shall be placed on Supplier compliance with the Reconciliation of Daily Imbalance Volumes (Section 18 of these General Terms and Conditions), OFOs (Section 21) and Standards of Conduct (Section 24).

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE**6. ASSESSMENT OF SUPPLY AND CAPACITY**

- 6.1 East Ohio shall assess the sufficiency of Supplier's supply and/or capacity rights on a monthly basis during the November through March period. If East Ohio adopts enrollment procedures that permit intra-month changes in the number of Customers served by Supplier, East Ohio may update its assessment during the month. If such assessment indicates that Supplier's rights are deficient relative to 91.75% of its End Use Customers' design day requirements for the following month, East Ohio shall notify Supplier, which shall then correct the deficiency within ten business days. East Ohio may also require Supplier to submit a capacity and supply plan for the remainder of the November through March period in order to determine whether Supplier's plan and capabilities are sufficient to meet future Customer requirements. Supplier's failure to correct any deficiencies may be deemed to be a material default within the meaning of OAC Rule 4901:1-13-14(J) and may be grounds for East Ohio requesting suspension or termination of the Agreement pursuant to OAC Rule 4901:1-13-14(J)(2). In the event such deficiency remains uncorrected, East Ohio may also, at its sole discretion and in accordance with reasonable and standard industry practice, recall or otherwise withdraw any capacity rights assigned to the Supplier pursuant to Sections 4 and 5 of these General Terms and Conditions upon five (5) days' written notice to the Supplier.
- 6.2 The capacity retained by East Ohio for operational balancing purposes shall be comprised of 75% Contract Storage capacity and 25% On-System Storage capacity. East Ohio shall review annually the amount and composition of its operational balancing capacity. If such review indicates that this designated amount and/or composition of operational balancing is not required to maintain system integrity, the amount and/or composition may be modified after review by the PUCO Staff.

- 7.1 All Transportation Volumes shall be measured at Transportation Receipt Points specified by Supplier and accepted by East Ohio in accordance with the terms of East Ohio's agreement with the Upstream Pipeline. Such measurement shall be conclusive for purposes of the Agreement.
- 7.2 When Transportation Volumes are received by East Ohio on an MMBtu basis, East Ohio will make a heat content adjustment in order to convert Supplier's Transportation Volumes to an Mcf basis. For each calendar year, East Ohio will

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

calculate the weighted average heat content of all such gas delivered to East Ohio during this period (the "Transportation Volume Heat Content Adjustment Factor"). This Transportation Volume Heat Content Adjustment Factor, expressed as MMBtu per Mcf, will be used to adjust all Transportation Volumes received during the following twelve (12) month period commencing on April 1, unless East Ohio and Supplier agree in writing to an alternative Heat Content Adjustment Factor. East Ohio shall review annually the use of a system-wide Heat Content Adjustment Factor. If such a review indicates that area or point-specific Heat Content Adjustment Factors are required, East Ohio may implement them after review by the PUCO staff.

- 7.3 Transportation Volumes received by East Ohio at Transportation Receipt Points shall conform to Upstream Pipeline's gas quality standards, unless such standards have not been filed with, and approved by, either the FERC or the PUCO, in which case Transportation Volumes must conform to the gas quality standards of East Ohio in effect at the time.
- 7.4 East Ohio shall use its best efforts to receive Transportation Volumes for Supplier's account, unless Supplier has made an election pursuant to Section 9 of these General Terms and Conditions.

8. NOMINATION OF TRANSPORTATION VOLUMES

- 8.1 All Transportation Volumes received for Supplier's account at Transportation Receipt Points shall be nominated to East Ohio in advance according to the procedures outlined in this Section.
- 8.2 Nominations are to be transmitted to East Ohio via East Ohio's EBB and are to be received by East Ohio by the dates and times specified in East Ohio's calendar of nominations, as amended from time to time, which is available on East Ohio's EBB.
- 8.3 Nominations must conform, in content and format, with East Ohio's specifications for Transportation Volume nominations, which shall include, at a minimum: Supplier's East Ohio contract number; Upstream Pipeline; Upstream Pipeline contract number; and requested daily Transportation Volume.
- 8.4 East Ohio will either confirm, in total or in part, or reject Supplier's Transportation Volume nomination based upon East Ohio's operating conditions, the limits and requirements of East Ohio's system and facilities, previously confirmed nominations and timely confirmation by Upstream Pipelines. Confirmed Transportation Volumes will be posted on East Ohio's EBB. In order to support system operations, maintain system integrity, and minimize Positive or Negative

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

Imbalance Volumes, East Ohio may request Supplier to nominate and deliver Transportation Volumes to designated Transportation Receipt Points. Such requests shall be posted in advance on East Ohio's EBB. If, in East Ohio's sole discretion, voluntary compliance by Suppliers fails to correct operational deficiencies, East Ohio may exercise its authority under Paragraph 21.1 to issue Supplier-specific and/or system-wide OFOs.

- 8.5 Confirmed nominations will become effective on the date specified in Supplier's nomination and will remain in force until the last day of the current calendar month, subject to continued receipt by East Ohio from Upstream Pipeline of the confirmed volume, unless superseded by a subsequent Transportation Volume nomination.
- 8.6 Nominations made in accordance with this Section do not relieve Supplier of the obligation to submit corresponding nominations for service with an Upstream Pipeline.

9. FIRM RECEIPT POINT OPTION

- 9.1 Supplier may elect to designate specific Transportation Receipt Points as firm receipt points. Each such firm receipt point, and the corresponding maximum daily transportation quantity for each such firm receipt point, shall be specified in a separate agreement. The sum of the maximum daily transportation quantities for all firm receipt points shall not exceed the total Maximum Daily Allocation Quantity specified in the Agreement.
- 9.2 Access to any receipt points on East Ohio's system, as to which an election pursuant to Paragraph 9.1 above has not been made, shall be on a best efforts basis.
- 9.3 Supplier making an election pursuant to Paragraph 9.1 above shall be assessed a firm receipt point surcharge; the actual amount of the surcharge shall be determined through competitive bidding with minimum bid amounts to be determined by East Ohio.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE**LOCAL PRODUCTION VOLUMES****10. PRODUCTION RECEIPT POINTS**

- 10.1 The unit of measurement for Production Volumes shall be one (1) cubic foot of gas, and the term "cubic foot of gas" shall mean a cubic foot of gas at a pressure of 14.73 PSIA and at a temperature of 60 degrees Fahrenheit. For purposes of measurement and meter calibration, atmospheric pressure shall be assumed to be 14.4 pounds per square inch. All gas delivered to East Ohio by the Supplier, or by the party from which the Supplier purchases volumes delivered to East Ohio, shall be measured by orifice or other measurement facility of standard type to be selected and furnished by East Ohio, except where superseded by a Measurement Operating Agreement. Orifice meters on East Ohio's system shall be constructed and installed in accordance with the applicable provisions of the American National Standard "Orifice Metering of Natural Gas," ANSI/API 2530, First Edition, and any amendments thereto. The volumes of gas delivered to East Ohio shall be computed from meter records and converted into the unit of measurement specified above in accordance with reasonable and standard industry practices. Correction shall not be made for deviation from the Ideal Gas Laws. In the absence of a recording thermometer, an assumed flowing temperature of 60 degrees Fahrenheit shall be used in computing said quantities of gas; provided, however, that if the temperature of the natural gas passing through the meter is determined for any Day by the use of a recording thermometer, then the arithmetic average of the temperatures recorded for such Day shall be used.
- 10.2 When Production Volumes are received by East Ohio on an Mcf basis, East Ohio will make an adjustment in order to recognize the heat content of Customer's Production Volumes. For each calendar year, East Ohio will calculate the average heat content of all Production Volumes delivered to East Ohio during this period. This Production Volume Heat Content Adjustment Factor, expressed as MMBtu per Mcf, will be used to adjust all Production Volumes received during the following twelve (12) month period commencing on April 1, unless East Ohio and Customer agree in writing to an alternative Production Volume Heat Content Adjustment Factor or local conditions warrant application of area- or point-specific Production Volume Heat Content Adjustment Factors.
- 10.3 The Production Volume delivered to East Ohio shall be delivered in its natural state, and have a gross heating value of not less than 1,000 British thermal units per cubic foot at 14.73 PSIA, 60 degrees Fahrenheit and must conform with the gas quality standards of East Ohio in effect at the time.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

- 10.4 If at any time the delivery by the Supplier at any Production Receipt Point specified by Supplier and accepted by East Ohio shall be less than an average of ten thousand cubic feet per Day, then East Ohio, at its sole option, may require gas behind any such meter(s) to be measured pursuant to a Measurement Operating Agreement, by giving the Supplier thirty (30) days' prior written notice.
- 10.5 The Production Receipt Points for Production Volumes from physical meters specified by Supplier and accepted by East Ohio shall be at measuring stations constructed to East Ohio's specifications, and operated and maintained by East Ohio, except where superseded by a Measurement Operating Agreement, to be located at such points as East Ohio and the Supplier shall agree, on East Ohio's lines as now constructed or on any extensions thereof which East Ohio in its sole judgment may hereafter construct. The sites for said measuring stations may be furnished by East Ohio, or, if furnished by the Supplier, shall provide rights of ingress and egress to East Ohio. In the event the Supplier wishes to change any Production Receipt Points, Supplier shall reimburse East Ohio in advance for East Ohio's costs in connection with such change and Supplier shall be directly responsible for all other costs associated with the change. Measuring stations on East Ohio's lines existing as of the date of the Agreement and owned by the Supplier or any other person shall, subject to the approval of East Ohio, also be designated as Production Receipt Points, to be operated and maintained by East Ohio, except where superseded by a Measurement Operating Agreement.
- 10.6 Supplier may aggregate Production Volumes as measured by third parties at measuring stations furnished, constructed, owned, operated and maintained by third parties. Detailed information concerning such aggregated Production Volumes shall be reported by Supplier to East Ohio in a timely manner in accordance with reasonable and standard industry practice.
- 10.7 Supplier shall be responsible for the construction of any necessary pipeline extending from the wells to the Production Receipt Points agreed upon. The Supplier, at the Supplier's expense, shall construct any required measuring stations in accordance with East Ohio's specifications. All new pipelines that connect wells specified by Supplier with East Ohio's pipelines shall be owned and constructed by the Supplier or by the party from which the Supplier purchases volumes delivered to East Ohio.
- 10.8 Unless otherwise agreed to by East Ohio and Supplier, prior to construction of a Production Receipt Point, East Ohio and Supplier, or the party from which the Supplier purchases volumes delivered to East Ohio, shall enter into an agreement identifying cost, construction and ownership responsibilities of all parties.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

- 10.9 Production Volumes received by East Ohio at Production Receipt Points specified by Supplier and accepted by East Ohio shall be taken by East Ohio on a best efforts basis at all times at full flow against the varying pressures maintained from time to time in East Ohio's pipelines. East Ohio at any time may suspend the taking of gas under the Agreement while making repairs or alterations in its facilities. When practicable East Ohio shall notify the Supplier in advance of its plans to suspend the taking of gas, giving its estimate of the duration of the suspension. Such repairs and alterations shall be completed with reasonable speed, unavoidable delays excepted. During periods when East Ohio must suspend the taking of gas, East Ohio shall not be required to accept Production Volumes at the affected Production Receipt Points. Subject to the foregoing, the Supplier may submit a request in writing to East Ohio for approval to install equipment to compress and pump the gas to be delivered to East Ohio under the Agreement. If Supplier compresses and pumps gas into East Ohio's system, Supplier shall install and maintain at its own expense the necessary equipment for the elimination or suppression of pulsation in the flowing gas that is created by compression equipment, and, in addition, the Supplier shall install the necessary equipment to insure the flowing temperature of the Production Volumes delivered does not exceed 120 degrees Fahrenheit at the measuring stations described.
- 10.10 The capacity of East Ohio's facilities to receive Production Volumes at the Production Receipt Points shall be determined by East Ohio in its sole judgment, in accordance with reasonable and standard industry practice. East Ohio shall have the right to restrict, limit or halt its receipt of Production Volumes whenever, in its sole judgment, in accordance with reasonable and standard industry practice, it is necessary to do so due to Force Majeure, an order of the PUCO or other governmental body, or circumstances requiring East Ohio to act to protect its ability to meet its Core Sales Demand. In the event East Ohio exercises its right to restrict, limit or halt its receipt of Production Volumes, it shall give the Supplier notice by telephone, letter or otherwise to decrease or terminate deliveries of Production Volumes to East Ohio until such time as, in East Ohio's sole judgment, in accordance with reasonable and standard industry practice, deliveries may be increased or resumed. If the Supplier fails to act promptly in accordance with such notice, East Ohio shall have the right to shut in Production Receipt Points or otherwise refuse to accept further Production Volumes at the Production Receipt Points.
- 10.11 The Supplier shall install and maintain at the Supplier's own expense, the necessary equipment for separating and removing oil, water, salt, dust and other foreign substances from Production Volumes upstream of the Production Receipt Points. The gas delivered to East Ohio at the Production Receipt Points shall be free from all foreign matter or fluid contamination that could interfere with its marketability or interfere with the operation of East Ohio's lines, regulators, meters or other

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

appliances connected with East Ohio's distribution system. East Ohio may refuse, at any time, any Production Volumes that contain contamination or objectionable odors, or otherwise do not meet East Ohio's gas quality standards.

- 10.12 East Ohio shall maintain in good repair all meters, gauges and regulating equipment at the Production Receipt Points receiving Production Volumes, except where superseded by a Measurement Operating Agreement. East Ohio shall read the meters, which shall be accessible to inspection and examination by the Supplier at all reasonable times. If either party challenges the accuracy of any meter in use under the Agreement and desires to have the meter tested, East Ohio shall test the meter in the presence of a Supplier employee or representative, if the Supplier wishes to exercise the right to be present or to be represented at such test. The cost of testing the meter shall be borne by the party challenging its accuracy if it proves to be correct, and it shall be deemed correct if there be no greater variation than three percent (3%), either fast or slow, but if the meter on test proves to be incorrect, then the cost of testing the meter shall be borne by East Ohio. Any adjustment for errors in the meter shall be made for a period not to exceed ninety (90) days prior to the date of challenge by either party. The statements of meter measurement and estimated deliveries which under the Agreement are to be rendered by East Ohio to the Supplier monthly shall be final, excepting as to corrections or adjustments then pending or subsequently determined by East Ohio, unless exceptions thereto in writing shall be made by the Supplier and mailed to East Ohio within sixty (60) days after the Supplier receives the statements. Corrections or adjustments shall be made by adjusting volumes in the first measurement period following their determination.
- 10.13 The addition or removal of Production Receipt Points specified by Supplier shall be the subject of written supplements, which shall be proposed by the Supplier and accepted or rejected at the sole discretion of East Ohio, in accordance with reasonable and standard industry practice.

11. NOMINATION OF PRODUCTION VOLUMES

- 11.1 All Production Volumes received for Supplier's account at Production Receipt Points shall be nominated to East Ohio in advance according to the procedures outlined in this Section.
- 11.2 Nominations are to be transmitted to East Ohio via East Ohio's EBB and are to be received by East Ohio by the dates and times specified in East Ohio's calendar of nominations, as amended from time to time, which is available on East Ohio's EBB.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

- 11.3 Nominations must conform, in content and format, with East Ohio's specifications for Production Volume nominations, which shall include, at a minimum: Supplier's East Ohio contract number and requested daily Production Volume.
- 11.4 Subject to East Ohio's operating conditions, the limits and requirements of East Ohio's system and facilities, and the reasonableness of Supplier's nomination as determined solely by East Ohio, East Ohio will either confirm, in total or in part, or reject Supplier's Production Volume nomination. Confirmed Production Volumes will be posted on East Ohio's EBB.
- 11.5 Confirmed nominations will become effective on the date specified in the Supplier's nomination and will remain in force until the last day of the current calendar month, unless superseded by a subsequent Production Volume nomination.

12. RECONCILIATION OF PRODUCTION VOLUMES

- 12.1 Confirmed Production Volume nominations will be credited to Supplier's account on the date specified in the Supplier's nomination. When actual Production Volumes are known, any discrepancies between actual and confirmed Production Volumes will be reconciled, in the first full calendar month following the determination of actual Production Volumes (the "Adjustment Month"), in accordance with the provisions of Paragraphs 12.2 and 12.3 below. Reconciliation volumes may not be used in determining comparable capacity requirements. East Ohio reserves the right to interrupt such reconciliation volumes during OFO periods.
- 12.2 When actual Production Volumes exceed confirmed Production Volume nominations, the positive volumetric discrepancy will be reconciled in the Adjustment Month by increasing Supplier's Daily Available Volume on each Day in the Adjustment Month by an amount equal to the positive volumetric discrepancy divided by the number of days in the Adjustment Month.
- 12.3 When confirmed Production Volume nominations exceed actual Production Volumes, the negative volumetric discrepancy will be reconciled in the Adjustment Month by decreasing Supplier's Daily Available Volume on each Day in the Adjustment Month by an amount equal to the negative volumetric discrepancy divided by the number of days in the Adjustment Month.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE**ON-SYSTEM STORAGE VOLUMES****13. NOMINATION OF STORAGE VOLUMES**

- 13.1 All Storage Volumes requested to be injected or withdrawn for Supplier's account shall be nominated to East Ohio in advance according to the procedures outlined in this Section.
- 13.2 Nominations are to be transmitted to East Ohio via East Ohio's EBB and are to be received by East Ohio by the dates and times specified in East Ohio's calendar of nominations, as amended from time to time, which is available on East Ohio's EBB.
- 13.3 Nominations must conform, in content and format, with East Ohio's specifications for Storage Volume nominations, which shall include, at a minimum: Supplier's East Ohio contract number and requested daily Storage Volume.
- 13.4 Subject to the limitations as outlined in this Section, and the reasonableness of Supplier's nomination based upon East Ohio's operating conditions and the limits and requirements of East Ohio's system and facilities, East Ohio will either confirm, in total or in part, or reject Supplier's Storage Volume nomination. Confirmed Storage Volumes will be posted on East Ohio's EBB.
- 13.5 Confirmed nominations will become effective on the date specified in the Supplier's nomination and will remain in force until the last day of the current calendar month, unless superseded by a subsequent Storage Volume nomination.

Summer Period On-System Storage Operation

- 13.6 The maximum quantity of gas which Supplier shall be entitled to nominate for injection on a firm basis into On-System Storage on any one Day is one-one hundred eightieth (1/180) of the On-System Storage capacity assigned to Supplier pursuant to Paragraph 5.1 of these General Terms and Conditions ("Capacity") when Supplier's On-System Storage inventory level is less than or equal to one half of Capacity, and one-two hundred fourteenth (1/214) of Capacity thereafter. Such injections shall be subject to interruptions or curtailment based on the failure of an Upstream Pipeline to deliver Transportation Volumes, the failure of the Supplier to deliver Production Volumes, the issuance of OFOs by East Ohio, Force Majeure conditions, or an order of the PUCO or other governmental body.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

- 13.7 Supplier may request permission to nominate volumes for injection in excess of the amounts set forth in the preceding Section. East Ohio shall endeavor to inject those additional volumes into On-System Storage on any Day on an interruptible basis as operating conditions permit. East Ohio may decline such requests whenever, in its judgment, the injection of volumes in excess of the amounts set forth in the preceding Section would be detrimental to the operation or integrity of East Ohio's system or its ability to meet Core Sales Demand in a cost effective manner.
- 13.8 Supplier must nominate injection volumes in such a manner as to attain minimum On-System Storage inventory levels, expressed as a percentage of Supplier's Capacity, over the Summer Period in accordance with the schedule set forth below:

<u>Cumulative Injections as a Percentage of Capacity</u>	<u>Date by Which that Percentage Must be Attained ("Target Injection Date")</u>
4% to 13%	May 1
20% to 30%	June 1
34% to 44%	July 1
51% to 57%	August 1
65% to 71%	September 1
79% to 85%	October 1
95% to 100%	November 1

Winter Period On-System Storage Operation

- 13.9 Supplier's Storage Demand shall be based on the On-System Storage capacity assigned to Supplier pursuant to Paragraph 5.1 of these General Terms and Conditions. Such withdrawals shall be subject to interruptions or curtailment based on the issuance of OFOs by East Ohio, Force Majeure conditions, or an order of the PUCO or other governmental body.
- 13.10 Supplier's Storage Demand shall be reduced in accordance with the inventory-based ratchet provisions set forth below:
- (a) If at the end of any Day, Supplier's On-System Storage inventory level is less than or equal to 50% of Supplier's cumulative On-System Storage injection volume as of the end of the Summer Period ("Cumulative Injection Volume") but greater than or equal to 30% of such volume, Supplier's Storage Demand shall be reduced by 25%.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

- (b) If at the end of any Day, Supplier's On-System Storage inventory level is less than 30% of Supplier's Cumulative Injection Volume, Supplier's Storage Demand shall be reduced by 40%.
- 13.11 Supplier may request permission to nominate volumes for withdrawal in excess of its then effective Storage Demand. East Ohio shall endeavor to withdraw those additional volumes from On-System Storage on any Day on an interruptible basis as operating conditions permit. East Ohio may decline such requests whenever, in its judgment, the withdrawal of volumes in excess of the amounts set forth in the preceding Section would be detrimental to the operation or integrity of East Ohio's system or its ability to meet Core Sales Demand in a cost effective manner.
- 13.12 Supplier must maintain On-System Storage inventory levels, expressed as a percentage of Supplier's Cumulative Injection Volume, over the Winter Period in accordance with the schedule set forth below:

<u>Date</u>	<u>Required Storage Inventory Level</u>
December 1	92% to 95%
January 1	55% to 65%
February 1	30% to 35%
March 1	12% to 17%

Supplier's failure to maintain the required On-System Storage inventory levels set forth in the above schedule shall result in a further 25% reduction of the Storage Demand level until such time as the Supplier achieves the required storage inventory level. In addition, East Ohio, at its sole discretion and in accordance with reasonable and standard industry practice, may adjust Supplier's Storage Volume withdrawal nomination.

- 13.13 Supplier may request permission to nominate volumes for re-injection into On-System Storage during the Winter Period of up to one-two hundred fourteenth (1/214) of Supplier's Cumulative Injection Volume. East Ohio shall endeavor to inject those re-injection volumes into On-System Storage on any Day on an interruptible basis as operating conditions permit. East Ohio may decline such requests whenever, in its judgment, the injection of volumes in excess of the amounts set forth in the preceding Section would be detrimental to the operation or integrity of East Ohio's system or its ability to meet Core Sales Demand in a cost effective manner. East Ohio may require Winter Period storage re-injections or withdrawals under an On-System Storage OFO ("Storage OFO") in which it will indicate the required Storage Volume to be injected or withdrawn for the period during which the Storage OFO is in effect. Adjustments to the effective Storage Demand level may be made by East Ohio at its sole discretion and in

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

accordance with reasonable and standard industry practice based on operating conditions. Failure to comply with a Storage OFO may be deemed to be a material default within the meaning of OAC Rule 4901:1-13-14(J) and may be grounds for East Ohio requesting suspension or termination of the Agreement pursuant to OAC Rule 4901:1-13-14(J)(2). Such failure may also result in East Ohio, at its sole discretion and in accordance with reasonable and standard industry practice, reducing Supplier's Storage Demand levels by up to 50% for the remainder of the Winter Period.

- 13.14 Supplier shall nominate volumes for withdrawal from On-System Storage so as to completely withdraw its Cumulative Storage Injection Volume and any volumes re-injected pursuant to Paragraph 13.13 not later than March 31. Any volumes remaining in On-System Storage as of that date may be purchased by East Ohio pursuant to the terms of Paragraph 18.1 of these General Terms and Conditions and will be subject to the reservation, injection and withdrawal fees of optional firm storage service.

If the Pool-to-Pool Volume to be received into Supplier's Pool is from its LPPS pool, the nomination must include the East Ohio contract number of Supplier's LPPS pool.
- 14.4 Subject to the reasonableness of Supplier's nomination as determined solely by East Ohio, East Ohio will either confirm, in total or in part, or reject Supplier's Pool-to-Pool Volume nomination. Confirmed Pool-to-Pool Volumes will be posted on East Ohio's EBB.
- 14.5 Confirmed nominations will become effective on the date specified in the Supplier's nomination and will remain in force until the last day of the current calendar month, unless superseded by a subsequent Pool-to-Pool Volume nomination. If a nomination has the effect of increasing a Supplier's imbalance, East Ohio shall have the right to reject such nomination as unreasonable.

15. NOMINATION OF SUPPLIER ALLOCATION VOLUMES

- 15.1 Supplier Allocation Volumes shall be nominated to East Ohio in advance according to the procedures outlined in this Section.
- 15.2 Supplier Allocation Volume nominations are to be transmitted to East Ohio via East Ohio's EBB and are to be received by East Ohio by the dates and times specified in East Ohio's calendar of nominations, as amended from time to time, which is available on East Ohio's EBB.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

DAILY SUPPLY REQUIREMENTS

16. DETERMINATION OF AGGREGATE DAILY CONSUMPTION VOLUME

- 16.1 Each of the End Use Customers of Supplier's Pool must have all of its natural gas consumption over the entire Customer Billing Cycle supplied by Pool volumes nominated by Supplier.
- 16.2 Supplier is required to have a sufficient Daily Available Volume as confirmed by East Ohio to meet the Supplier's Daily Pool Requirement, which is the sum of Supplier's Aggregate Daily Consumption Volume and Supplier Allocation Volume and Storage Volume injections as confirmed by East Ohio.
- 16.3 Each Monday through Friday before 8:30 a.m. Eastern Time, East Ohio will provide a projection of the Aggregate Daily Consumption Volume of the End Use Customers of the Supplier's Pool for the subsequent gas day(s). During periods in which no OFOs have been issued, East Ohio will use the following schedule to establish the Aggregate Daily Consumption Volume for which the Supplier will be held accountable:

The Projection Provided On:	Will Be Used to Establish the Aggregate Daily Consumption Volume <u>Accountability for the Following:</u>
Monday Tuesday Wednesday Thursday Friday	Tuesday Wednesday Thursday Friday Saturday, Sunday, Monday

East Ohio shall have the option of posting the Aggregate Daily Consumption Volume on a daily basis if it determines that more frequent postings are necessary to avoid excessive daily imbalance volumes.

The above lead times may be lengthened during holiday periods to provide Supplier with additional time to submit nominations. The above lead times may be shortened during periods in which an OFO is in effect. During such periods, East Ohio shall establish the Aggregate Daily Consumption Volume no later than 10:00 a.m. Eastern Time of the same Day.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

- 16.4 East Ohio may adjust its forecasting methodology if needed to address operational requirements in the event of substantial changes in Supplier enrollments or other factors that may cause excessive daily or monthly imbalances. East Ohio shall share information regarding its Energy Choice forecasting methodology with interested parties upon request and shall in a timely fashion consider and evaluate suggestions by Supplier, PUCO Staff and the Office of Consumers' Counsel to improve that methodology.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE**IMBALANCE RESOLUTION****17. DAILY IMBALANCE TRADING**

- 17.1 Supplier is required to have a sufficient Daily Available Volume as confirmed by East Ohio to meet the Supplier's Daily Pool Requirement. Supplier may trade daily imbalance volumes with one or more other ECPS Suppliers.
- 17.2 If Supplier has a positive daily imbalance volume created by a surplus of Daily Available Volume on any Day, Supplier may nominate all or a portion of this volume (the "Imbalance Trading Volume") to be traded to another ECPS Supplier. Supplier agrees to pay to East Ohio a total of ninety-five dollars and sixty cents (\$95.60) plus applicable gross receipts tax per month for such trading transactions.
- 17.3 If Supplier has a negative daily imbalance volume created by a deficiency of Daily Available Volume on any Day, Supplier may offset all or a portion of this imbalance by receiving Imbalance Trading Volumes nominated by one or more ECPS Suppliers.
- 17.4 All Imbalance Trading Volumes designated for a calendar month shall be nominated to East Ohio by the close of the reallocation period for imbalance trading as stated on East Ohio's EBB. Nominations of Imbalance Trading Volumes are to be transmitted to East Ohio via East Ohio's EBB.
- 17.5 Nominations must conform, in content and format, with East Ohio's specifications for Imbalance Trading Volume nominations, which shall include, at a minimum: East Ohio ECPS contract number; requested daily Imbalance Trading Volume; and receiving Supplier's East Ohio ECPS contract number(s).
- 17.6 Subject to the reasonableness of Supplier's nomination as determined solely by East Ohio, East Ohio will either confirm, in total or in part, or reject Supplier's Imbalance Trading Volume nomination. Confirmed Imbalance Trading Volumes will be posted on East Ohio's EBB.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE**18. RECONCILIATION OF DAILY IMBALANCE VOLUMES**

The sum of the positive daily imbalance volumes accumulated during the month will be totaled and purchased by East Ohio at a price based on the ratio of the cumulative positive daily imbalance volume to the sum of the Daily Pool Requirements for the month. The Minimum Reference Price shall equal the minimum of the daily midpoints of common price spreads for Eastern Gas, South, during the month, as published in *Platts Gas Daily* (S&P Global Platts), or an appropriate successor index should it cease to be published, plus the variable transportation charges to bring the gas to East Ohio's system, adjusted for shrinkage.

<u>Positive Imbalance Percentage</u>	<u>Minimum Reference Price Multiplier</u>
From 0% up to and including 25%	1.00
Over 25% up to and including 50%	0.75
Over 50%	0.50

Negative Daily Imbalance Charges

The sum of the negative daily imbalance volumes accumulated during the month will be totaled and sold by East Ohio at a price based on the ratio of the cumulative negative daily imbalance volume to the sum of the Daily Pool Requirements for the month. The Maximum Reference Price shall equal the maximum of the daily midpoints of common price spreads for Eastern Gas, South, during the month, as published in *Platts Gas Daily* (S&P Global Platts), or an appropriate successor index should it cease to be published, plus the firm transportation charges to bring the gas to East Ohio's system, adjusted for shrinkage, and associated excise tax.

Over 50%	1.50

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

- 18.2 Supplier's failure to provide cumulative Daily Available Volumes plus Imbalance Trading Volumes equal to at least 90% of cumulative Daily Pool Requirements over a month may be deemed to be a material default within the meaning of OAC Rule 4901:1-13-14(J) and may be grounds for East Ohio requesting suspension or termination of the Agreement pursuant to OAC Rule 4901:1-13-14(J)(2). East Ohio may also, at its sole discretion and in accordance with reasonable and standard industry practice, recall or otherwise withdraw any capacity rights assigned to the Supplier pursuant to Paragraphs 4 and 5 of these General Terms and Conditions upon five (5) days' written notice to the Supplier.
- 18.3 Supplier's failure to provide Daily Available Volumes plus Imbalance Trading Volumes equal to at least 80% of Daily Pool Requirements for five or more days in a month may be deemed to be a material default within the meaning of OAC Rule 4901:1-13-14(J) and may be grounds for East Ohio requesting suspension or termination of the Agreement pursuant to OAC Rule 4901:1-13-14(J)(2). East Ohio may also, at its sole discretion and in accordance with reasonable and standard industry practice, recall or otherwise withdraw any capacity rights assigned to the Supplier pursuant to Sections 4 and 5 of these General Terms and Conditions upon five (5) days' written notice to the Supplier.

East Ohio may also, at its sole discretion and in accordance with reasonable and standard industry practice, recall or otherwise withdraw any capacity rights assigned to the Supplier pursuant to Sections 4 and 5 of these General Terms and Conditions upon five (5) days' written notice to the Supplier.

19. RECONCILIATION OF MONTHLY VOLUMES

- 19.1 The Calendar Month Pool Sendout of all Customers of Supplier's Pool shall be defined as the sum of (1) Aggregate Monthly Consumption Volumes as adjusted for net unbilled volumes plus (2) the sum of the Supplier Allocation Volumes nominated for the month plus (3) the sum of Imbalance Trading Volumes traded to other Suppliers during the month plus (4) the sum of Storage Volumes injected during the month. Net unbilled volumes for CCS Energy Choice Customers shall be calculated in the same manner used for CCS sales customers to estimate their

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

calendar month usage for accounting purposes. East Ohio shall answer inquiries from Supplier as to how such unbilled volumes are calculated.

- 19.2 The Calendar Month Pool Supply shall be defined as the sum of the Daily Available Volume during the month as adjusted for any Imbalance Trading Volumes received from other Suppliers during the month and any sales to, or purchases from, East Ohio pursuant to Section 18 of these General Terms and Conditions.
- 19.3 The difference between Calendar Month Pool Supply and Calendar Month Pool Sendout, as adjusted for any prior month billing corrections, shall be reconciled monthly.
- 19.4 Supplier shall have the following options, described further in Paragraphs 19.5 to 19.7, to reconcile month-end imbalance volumes: (1) trading such imbalances during the monthly reallocation period; (2) adjusting month-end storage inventories; and (3) submitting to a financial cash-out using index prices.
- 19.5 Supplier may trade some or all of its month-end imbalance volumes (both negative and positive) determined in accordance with Paragraph 19.3 with other ECPS and FRPS suppliers during the subsequent monthly reallocation period. Supplier shall not trade so as to increase the size of its initial imbalance in any pool.
- 19.6 Supplier may use some or all of its month-end imbalance volumes (both negative and positive) determined in accordance with Paragraph 19.3 to debit or credit the month-end inventory of any storage service assigned to, or purchased by, Supplier up to the maximum allowable amount.
- 19.7 Supplier may cash out some or all of the month-end imbalance volume (both negative and positive) determined in accordance with Paragraph 19.3 at the price used to determine the cost of On-System Storage transfers as set forth in Paragraph 5.2 of these General Terms and Conditions. Supplier shall submit an invoice for any amounts owed Supplier associated with the cash-out of positive imbalances. East Ohio agrees to process and pay the invoice within fifteen (15) days of posting. Any amounts owed East Ohio associated with the cash-out of negative imbalances shall be reflected in Supplier's applicable invoice.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE**OPTIONAL FIRM STORAGE SERVICE****20. FIRM STORAGE SERVICE**

- 20.1 Optional firm storage service is available to Supplier under this Agreement, subject to the availability of storage capacity and to the procedures and restrictions outlined in this Section.
- 20.2 Supplier may purchase additional firm storage service for use in its ECPS Pool to supplement the On-System Storage assigned pursuant to Paragraph 5.1 of these General Terms and Conditions. Such service shall have the same character of service as the On-System Storage described in Section 13 of these General Terms and Conditions. Purchase of the optional firm storage service is available prior to the commencement of the Summer Period at the time East Ohio offers its annual storage service agreements for other seasonal storage services.
- 20.3 Rates and charges for the optional firm storage service shall be identical to those of the Enhanced Seasonal Service offered under Rate Schedule FSS with the reservation fee payable before November 1 of each year and the usage fees paid upon volumes injected into and withdrawn from On-System Storage.
- 20.4 Because the optional storage service is purchased on an annual basis prior to the commencement of the Summer Period, the provisions of Section 5 of these General Terms and Conditions related to purchases from or sales to East Ohio of On-System Storage volumes in place do not apply. On-System Storage inventory transfers are available for use in this optional firm storage service pursuant to the applicable provisions of East Ohio's Storage Inventory Transfer Service.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE**OPERATIONAL FLOW ORDERS****21. OPERATIONAL FLOW ORDERS**

21.1 In order to support system operations and maintain system integrity, Supplier is subject to East Ohio's issuance of OFOs which may direct Supplier to adjust its supply nominations and/or its Supplier Allocation Volumes such that the Supplier's Daily Available Volume, as adjusted to reflect flowing supplies, equals its Daily Pool Requirement. East Ohio may also issue OFOs which direct Supplier to deliver specific quantities of gas to specific Transportation Receipt Points. Failure to comply with an OFO will result in East Ohio, at its sole discretion and in accordance with reasonable and standard industry practice, adjusting Supplier Allocation Volumes such that the Supplier's Daily Available Volume equals its Daily Pool Requirement. In the event that such an adjustment cannot fully equalize Supplier's Daily Available Volume with its Daily Pool Requirement, East Ohio, at its sole discretion and in accordance with reasonable and standard industry practice, may require the Supplier to fully utilize all assigned or purchased On-System Storage and Upstream Pipeline Primary Firm Transportation and Contract Storage capacity assigned or secured from another source pursuant to Sections 3 and 4 of these General Terms and Conditions to bring flowing supplies to East Ohio's system. Failure to comply with an OFO will result in East Ohio, at its sole discretion and in accordance with reasonable and standard industry practice, immediately recalling any assigned capacity throughout the remainder of the OFO period and billing the following incremental charges times the OFO shortfall, which is defined as the imbalance between Daily Available Volume and Daily Pool Requirement, as calculated by East Ohio, on those Days subject to the OFO:

- (a) the payment of a gas cost equal to the highest incremental cost paid by East Ohio on the date of non-compliance; and
- (b) demand charges based on the EGTS FTNN rate schedule pursuant to the following schedule:

<u>Number of Days of Noncompliance During the Calendar Month</u>	<u>Monthly Demand Charge Multiplier Applied to Maximum OFO Shortfall</u>
One, Two or Three	Three
Four, Five or Six	Six
Seven, Eight or Nine	Nine
Ten or More	Twelve

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

The maximum amount that the Supplier shall pay pursuant to Paragraph 21.1(b) over any Winter Season shall be twelve months' demand charges multiplied by the maximum OFO shortfall experienced during that Winter Season;

- (c) the payment of all other charges, inclusive of storage and overrun costs, incurred by East Ohio on the date of the OFO shortfall; and
 - (d) associated excise tax.
 - (e) East Ohio shall credit all payments received for charges billed pursuant to this section to costs recovered through Transportation Migration Rider, Part B.
- 21.2 Supplier's failure to comply with an OFO may be deemed to be a material default within the meaning of OAC Rule 4901:1-13-14(J) and may be grounds for East Ohio requesting suspension or termination of the Agreement pursuant to OAC Rule 4901:1-13-14(J)(2). East Ohio may also, at its sole discretion and in accordance with reasonable and standard industry practice, recall or otherwise withdraw any capacity rights assigned to the Supplier pursuant to Sections 4 and 5 of these General Terms and Conditions upon five (5) days' written notice to the Supplier unless already recalled under the provisions of Paragraph 21.1.
- 21.3 Suppliers in compliance with an OFO shall not be subject to any incremental charges or costs.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE**SUPPLIER BILLING AND CREDITWORTHINESS****22. STATEMENT**

- 22.2 Charges previously billed to Supplier by East Ohio, but unpaid by the payment date specified by East Ohio, will be assessed a late payment charge of one and one-half percent (1.5%) per month on the unpaid balance.
- 22.3 If Supplier fails to pay East Ohio for any services or charges rendered under the Agreement within thirty (30) days of the statement date, East Ohio may deduct this unpaid amount from any payments accruing to Supplier under the Agreement or use Supplier's assets associated with the Agreement including, but not limited to, any and all of the Collateral as defined in Paragraph 23.15.
- 22.4 If Supplier fails to pay East Ohio for any services or charges rendered under the Agreement within forty-five (45) days of the statement date, East Ohio may deem such failure to be a material default within the meaning of OAC Rule 4901:1-13-14(J) and may request suspension or termination of the Agreement pursuant to OAC Rule 4901:1-13-14(J)(2).

23. CREDITWORTHINESS**CREDIT EVALUATION (Paragraphs 23.1 – 23.14)**

- 23.1 East Ohio shall not commence service or continue service to Supplier if Supplier fails to meet the creditworthiness criteria outlined in this Section. Such creditworthiness criteria shall not be used to discriminate on any basis other than as specified herein. A fee of \$50.00 shall be assessed to Supplier for the initial and each subsequent creditworthiness review performed by East Ohio. East Ohio shall apply consistent evaluative practices to determine the acceptability of Supplier's overall financial condition, working capital, and profitability trends.
- 23.2 In order for East Ohio to complete its financial evaluation, Supplier shall provide East Ohio the following information: 1) most recent audited financial statements for itself or its parent company; 2) most recent Annual Report, 10K or 10Q for

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

itself or its parent company; 3) list of parent companies and affiliates; 4) names, addresses and phone numbers of three trade references, and 5) names, addresses and phone numbers of financial institution contacts. In the event that Supplier is unable to provide such information, East Ohio may permit the Supplier to provide other verifiable sources of financial information. East Ohio may require additional information if the preceding is not sufficient to determine Supplier's creditworthiness.

- 23.3 A Supplier may satisfy its initial creditworthiness requirement by demonstrating that it has and maintains investment grade long-term bond ratings from any two of the following rating agencies:

Agency	Senior Unsecured Rating
Standard & Poors	BBB- or higher
Moody's Investors' Services	Baa3 or higher

- 23.4 East Ohio shall make reasonable alternative credit arrangements with a Supplier that is unable to meet the aforementioned criteria and with those Suppliers whose credit requirements exceed their allowed unsecured credit limit, if any. East Ohio shall determine the amount and type of additional financial instruments, if any, needed to support a Supplier's participation in the Program.
- 23.5 Supplier shall not be operating under any chapter of the bankruptcy laws and shall not be subject to liquidation or debt reduction procedures under state laws such as an assignment for the benefit of creditors, or any informal creditors' committee agreement. An exception can be made for a Supplier who is a debtor in possession operating under Chapter XI of the Federal Bankruptcy Act, but only with adequate assurances that East Ohio's billing under the Agreement will be paid promptly as a cost of administration under the federal court's jurisdiction.
- 23.6 Supplier shall not be subject to the uncertainty of pending liquidation or regulatory proceedings in state or federal courts which could cause a substantial deterioration in its financial condition, which could cause a condition of insolvency, or which could jeopardize the ability to exist as an ongoing business entity.
- 23.7 Supplier shall not have any significant collection lawsuits or judgments outstanding which would seriously reflect upon Supplier's ability to remain solvent.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

- 23.8 If any of the events or actions described in Paragraphs 23.5, 23.6, and 23.7 above shall be initiated or imposed during the terms of service under the Agreement, Supplier shall provide notification thereof to East Ohio within two (2) working days of any such initiated or imposed event or action.
- 23.9 If Supplier has an ongoing business relationship with East Ohio, no delinquent balances shall be consistently outstanding for billings made previously by East Ohio and Supplier shall have paid its account in the past according to the established terms and not made deductions or withheld payment for claims not authorized by contract.
- 23.10 In order to assure that the value of Supplier's financial security instruments remains proportional to Supplier's potential liability under the Agreement, the required dollar amounts of such instruments may be adjusted at the sole discretion of East Ohio, in circumstances including, but not limited to, a change in the level of unsecured credit, if any, determined by East Ohio or a change in amount of required collateral in accordance with paragraph 23.20. In the event East Ohio determines that additional security is required, East Ohio will notify the Supplier of its determination, including the grounds for that determination, and will inform the Supplier that it shall either provide financial security as required by East Ohio within five (5) business days or adjust its current and future participation to a level no greater than East Ohio's revised requirements. Supplier's failure to adjust accordingly may result in East Ohio limiting the enrollment of additional Customers in Supplier's pool and/or deeming such failure to be a material default within the meaning of OAC Rule 4901:1-13-14(J) and may be grounds for East Ohio requesting suspension or termination of the Agreement pursuant to OAC Rule 4901:1-13-14(J)(2).
- 23.11 Supplier shall inform East Ohio of any significant change in Supplier's current financial condition. The required dollar amounts of financial security instruments may also be adjusted at the sole discretion of East Ohio based upon Supplier's demonstrated ability or inability to pay promptly.
- 23.12 In order for East Ohio to remain fully informed on participating Suppliers, Supplier shall serve East Ohio with its Annual Report to the Commission coincident with timing of its filing with the PUCO, and any other information provided to the PUCO pursuant to OAC Chapter 4901:1-27.
- 23.13 In the event of a Supplier Default as defined in Section 26 of these General Terms and Conditions, East Ohio shall have the right to use the proceeds from Supplier's financial instrument(s) to satisfy Supplier's obligations under the Agreement and any outstanding claims that East Ohio may have against Supplier. Such proceeds may also be used to secure additional gas supplies, including payment of the costs

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

of the gas supplies themselves, the costs of transportation, storage, gathering, taxes, and other related costs incurred in bringing those gas supplies into East Ohio's system.

- 23.14 East Ohio reserves the right to use Supplier's assets associated with the Agreement, including without limitation financial instruments required of Supplier to meet creditworthiness standards of this or any other agreement with Supplier; Accounts arising from East Ohio's billing of commodity service on behalf of Supplier, Supplier's On-System Storage Inventory held by East Ohio pursuant to this or any other agreement with Supplier; and any other gas in kind, As-Extracted or otherwise, delivered to East Ohio by Supplier, to offset or recoup any costs owed to and/or incurred by East Ohio.

SECURED INTEREST (Paragraphs 23.15 – 23.19)

- 23.15 Supplier shall grant East Ohio a security interest in the Collateral, as defined herein, to secure the payment and performance of Supplier's obligations under this or any other agreement between East Ohio and Supplier ("Obligations"). Such Collateral shall consist of all of the following: (i) financial instruments required of Supplier to meet creditworthiness standards of this or any other agreement with Supplier; (ii) Accounts arising from East Ohio's billing of commodity service on behalf of Supplier, (iii) Supplier's On-System Storage Inventory held by East Ohio pursuant to this or any other agreement with Supplier; and (iv) any other gas in kind, As-Extracted or otherwise, delivered to East Ohio by Supplier.
- 23.16 Supplier shall authorize East Ohio to file a financing statement ("Financing Statement") describing the Collateral in any jurisdiction as determined by East Ohio and represents that its exact legal name, state of formation, and principal place of business are as set forth in the Agreement.
- 23.17 Supplier's failure to grant East Ohio a security interest in the Collateral may result in East Ohio eliminating any unsecured credit extended to Supplier and adjusting the collateral requirement formula set forth in Paragraph 23.20 accordingly.
- 23.18 Upon a material default of this or any other agreement, East Ohio shall have the right without limitation to (1) take possession or otherwise dispose of such Collateral without delay to satisfy any and all Supplier Obligations then owing to East Ohio and (2) pursue any remedy available at law, including but not limited to those available as set forth in the Uniform Commercial Code of Ohio, to collect, enforce or satisfy such Obligations.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

23.19 In the event Supplier elects, or is forced, to terminate its participation in this Program in accordance with the provisions of the Agreement, or in the event of a Supplier Default resulting in termination of the Agreement, it shall continue its obligation to maintain its financial security instrument until East Ohio confirms that Supplier has satisfied all of the outstanding claims of East Ohio.

COLLATERAL REQUIREMENTS (Paragraph 23.20)

23.20 East Ohio shall assess the amount of financial security required of Supplier on a monthly basis by subtracting the maximum unsecured credit limit, if any, extended to Supplier from the collateral requirement, which shall be updated by the fifth business day of every month. To determine the Winter Period collateral requirement, East Ohio shall utilize the maximum collateral requirement estimated for the Winter Period. To determine the Summer Period collateral requirement, East Ohio shall utilize the maximum collateral requirement estimated for the Summer Period. The collateral requirement shall be estimated using the following formula:

$$\mathbf{CR} = (\mathbf{TPR} - (\mathbf{LP} + \mathbf{AS})) \times \mathbf{P}_{\mathbf{co}} - (\mathbf{TPR} \times \mathbf{P}_{\mathbf{br}}) \text{ where:}$$

CR equals Collateral Requirement (in \$)

TPR equals Total Pool Requirements (in mcf) as estimated by East Ohio for the upcoming month using normal heating degree days.

LP equals Local Production (in mcf) as determined by the first-of-month confirmed nomination of local production (if applicable) dedicated to the pool or nominated from the Supplier's Local Production Pooling Service pool times the number of days in the month. The Local Production volume shall exclude any volumes purchased from East Ohio under the ECPS monthly local production purchase option.

AS equals Available Storage (in mcf) as determined by the beginning of the month storage inventory (if applicable) held by the Supplier in conjunction with its ECPS pool. The Available Storage volume shall exclude any volumes purchased from East Ohio under the ECPS On-System Storage capacity provisions but not yet paid for.

P_{co} equals Cash Out Price (in \$/mcf) as determined by the estimated negative imbalance volume cash out rate based on Inside FERC's Gas Market Report first of month pricing with the applicable adjustments.

GENERAL TERMS AND CONDITIONS OF ENERGY CHOICE POOLING SERVICE

MDQ equals Maximum Daily Quantity (in mcf) used in calculating the comparable capacity requirement for the Supplier for the month (shown as Design Day Usage in the comparable capacity evaluation).

SD equals Storage Demand (in mcf) used in calculating the on-system storage assignment for the Supplier for the month.

P_{ofc} equals OFC Price (in \$/mcf) as determined by three months' worth of demand charges pursuant to East Ohio's OFC noncompliance charge calculation.

P_{br} equals Billing Rate Price (in \$/mcf) as determined by the last actual month's average billing rate charged by the Supplier for Customers billed by East Ohio.

East Ohio may add to the preceding Collateral Requirement any amounts billed pursuant to the Agreement but not yet paid by Supplier as well as any amounts estimated to be billed for the upcoming month as determined by East Ohio.
