Gas Cost Rates

The history of Enbridge Gas Ohio's (EGO) gas cost rates since February 2002 is shown below. The rates are stated per thousand cubic feet (Mcf) of natural gas. These rates include both the Standard Service Offer (SSO) rates and the former Gas Cost Recovery (GCR) rates, which represent the cost of acquiring natural gas for sale to customers who purchase gas from EGO. Since EGO passes its gas costs on to customers dollar-for-dollar, there is no profit included in the SSO rate, just as there was no profit in the GCR rate. In April 2009, the Standard Choice Offer (SCO) gas rate, which is a service provided by competitive retail natural gas (CRNG) suppliers participating in EGO's Energy Choice program became effective. EGO's gas cost rates change monthly and are approved by the Public Utilities Commission of Ohio.

Standard Service Offer Rate and Standard Choice Offer Rate

Rate changes begin mid-month.
