

Rules and Regulations

SECTION I – SERVICE

1. **Minimum Service Standards.** East Ohio shall comply with the minimum gas service standards for natural gas companies as set forth in Chapter 4901:1-13 of the Ohio Administrative Code, a copy of which may be viewed on the Public Utilities Commission of Ohio's Web site at www.puco.ohio.gov, or obtained from the Public Utilities Commission of Ohio upon request. Where the Public Utilities Commission of Ohio has granted a waiver to East Ohio for any provision of the minimum gas service standards, East Ohio shall comply with the terms of any Order granting such waiver.
2. **Application for Service.** All applications for gas service shall be made to East Ohio. East Ohio may, prior to initiating gas service and at other reasonable times, require the applicant to establish that the applicant is the owner or bona fide lessee of the premises. A proper application for gas service by a non-residential customer shall further include verification that the business, corporation or nonprofit is properly registered with the Ohio Secretary of State as an entity licensed to do business in the State of Ohio and that the name in which the customer's account is to be opened is in the same name as that registered with the Ohio Secretary of State; or, if the non-residential customer is a federally-chartered institution, that it is properly registered with the federal agency having regulatory or supervisory authority over it and that the name in which the customer's account is to be opened is the same name as that registered with the appropriate federal agency.
3. **Security Deposit.** If an applicant for service cannot establish creditworthiness or cannot give a reasonably safe guaranty in an amount sufficient to secure the payment of bills for sixty days' total usage, the proposed customer may be required to deposit with East Ohio an amount sufficient to cover an estimate of the monthly average of the annual consumption by such customer plus 30%, upon which deposit interest at the minimum rate authorized by the Public Utilities Commission of Ohio will be allowed and paid to the customer, provided it remains on deposit for six consecutive months. Security deposits will be billed in three installments to be paid concurrently with the respective monthly bills.

Residential security deposits shall be governed by the "Establishment of Credit for Residential Service" adopted by The Public Utilities Commission of Ohio and contained in Chapter 4901:1-17 of the Ohio Administrative Code. For small commercial customers, security deposits shall be governed by Rule 4901:1-13-08, "Standards specific to the provision of small commercial gas service" of the Ohio Administrative Code.

4. **Service Turn On.** The customer, after making proper application for service, shall notify East Ohio when the customer desires gas turned on. In no case shall the customer or any agent or employee of the customer turn on the gas. East Ohio may discontinue the supply of gas to premises where persons other than East Ohio's authorized agents or employees have turned on the gas.

5. **Service Continuity.** East Ohio will use its best efforts to furnish necessary and adequate service and facilities in compliance with Section 4905.22 of the Ohio Revised Code. East Ohio cannot and does not guarantee a sufficient supply of gas, adequate or uniform gas pressure, an uninterrupted supply of gas, or the quality of the gas supplied. East Ohio shall not be liable for any damage or loss directly or indirectly due or attributable to the insufficiency of the gas supply, any variation in the gas pressure, any partial or total interruption of gas service, or the quality of the gas supply. Nor shall East Ohio be liable for any damage or loss directly or indirectly resulting from the use of gas appliances on the customer's premises, or the presence thereon of any Company property. East Ohio will provide to customers, to the extent possible under the circumstances, prior notice of planned outages or interruptions in service.
6. **Service Disturbance.** No customer shall attach or use any appliance that may result in the injection of air, water, or other foreign matter into the Company's lines and, without prior approval from the Company, no customer shall attach or use any appliance that will increase or decrease the pressure in the Company's lines intermittently to such extent as to interfere with continuous service to other customers.
7. **Access to Premises.** The authorized agents and employees of East Ohio shall at all reasonable times have access to any premises supplied with gas by East Ohio. East Ohio may discontinue gas service to any premises where access is denied. Upon the customer's request, any employees or agents seeking access to the customer's premises shall identify themselves, provide Company photo identification, and state the reason for the visit.
8. **Customer's Request for Discontinuance of Service.** The customer shall notify East Ohio before vacating the premises where gas is used or before discontinuing the use of gas. The customer shall be liable for all charges for gas consumed on such premises until the earlier of East Ohio's completion of the service order or up to five business days after such notice has been received, provided that access to the premises shall have been given East Ohio within that period; and if access has not been given within such period then for all charges until such access has been given.

If a customer, who is a property owner or the agent of a property owner, requests disconnection of service and the Company through reasonable efforts has determined that there are remaining residential tenants at the premises, the Company is required to notify the tenants of the disconnection of service. This notification will be mailed to such tenants or posted in a conspicuous place at the premises at least 10 working days prior to the scheduled date for disconnection of service. The property owner, or the agent of the property owner, shall continue to be liable for all gas consumed during the 10-day notice period. This notice provision shall not preclude the Company from taking appropriate actions where safety or tampering issues are raised as stated in Rule 9, subparagraphs (g) and (h), and Rule 10 of these Rules and Regulations.

9. **Company's Right to Disconnect Service; Reconnection Fees.** East Ohio shall have the right to disconnect service and/or remove from the premises of any customer the meter and any other property belonging to East Ohio for any of the following reasons or purposes:
- a) Refusing access to its equipment for reading, testing, repairs or other purposes.
 - b) When providing service is in conflict or incompatible with any order of the PUCO, court of law, state of Ohio laws, federal government, or any of these Rules and Regulations.
 - c) Non-payment of bills for gas within the net payment period for such bills, including nonpayment of security deposits applied to delinquent bills as a condition for continued service.
 - d) When customer has moved from the service location.
 - e) Use of gas in a manner detrimental to the service to other customers.
 - f) Fraudulent representation or practice.
 - g) Whenever deemed necessary by East Ohio for the safety or integrity of the gas system or the customer's premises, including, but not limited to, situations in which a customer's houseline leak cannot be isolated to an individual appliance location drop.
 - h) Whenever there has been theft or vandalism, including, but not limited to, damage to the gas service meter, metering equipment, or the associated property was damaged, interfered with, displaced, bypassed or otherwise tampered with by a customer, consumer, or other person.
 - i) A person not authorized by East Ohio has reconnected service.
 - j) For good cause shown.

Disconnection of service to residential consumers or customers pursuant to Rule 9, subparagraph (a) of these Rules and Regulations shall include, but not be limited to, circumstances where despite its reasonable efforts to do so, East Ohio has been unable to obtain an actual meter reading at least once within any twelve-month period. "Actual meter reading" shall be as defined in Rule 18 of these Rules and Regulations. The reconnection of service after disconnection pursuant to Rule 9, subparagraph (a) of the Rules and Regulations shall be subject to prior payment of a fee of \$76.00 for the disconnection and reconnection costs. Payment of the designated deposit shall also be required in conjunction with a reconnection when service has been disconnected for the nonpayment of bills, where there has been a fraudulent misrepresentation or practice, whenever there is evidence of tampering or theft, or when a person not authorized by East Ohio has reconnected service. Security deposits will be billed in three installments to be paid concurrently with the respective monthly bills.

Disconnection of service to residential consumers or customers shall be governed by the "Termination of Residential Service" adopted by The Public Utilities Commission of Ohio and contained in Chapter 4901:1-18 of the Ohio Administrative Code or any successor, except for areas where the Public Utilities Commission of Ohio has granted a waiver to East Ohio for any provision of these rules. For small commercial customers, disconnection of

service shall be governed by Rule 4901:1-13-08, "Standards specific to the provision of small commercial gas service" of the Ohio Administrative Code or any successor.

SECTION II – METERING & BILLING

10. **Pressure Regulators, Gas Meters and Tampering.** The gas meter and any pressure regulator to be installed on a service line and connected with East Ohio's distribution system will be furnished by East Ohio and will remain its property, and the Company shall have the right to replace or relocate them as the Company may deem necessary. When a customer is served from any high-pressure line, including field or gathering lines, the customer shall install and maintain, at his expense, a suitable regulator or regulators for reducing the pressure. The regulator or regulators shall be installed in the manner required by the Company. If any meter or regulator, or the pipes, fittings or connections used in supplying gas to such meter or regulator, is tampered with by a customer or the customer's agent or employee, East Ohio may remove such meter or regulator and may discontinue the supply of gas to such customer until payment has been made for all unregistered gas, in an amount estimated by East Ohio, and for all damage to East Ohio's property, or, at East Ohio's option, it may discontinue gas service permanently to such customer.
11. **Meter Location.** The Company shall determine the location of the meter. When changes at the premises render the meter inaccessible, exposed to hazards, or insufficient to serve customer's natural gas requirements, the Company may, at the customer's expense, relocate or replace the meter setting together with any portion of the customer's service line necessary to accomplish such relocation.
12. **Meter Connections.** The owner or customer shall not permit anyone who is not an authorized agent of the Company to connect or disconnect the Company's meters, regulators, gauges, or other Company equipment or in any way alter or interfere with the same.
13. **Bill Due Date.** The due date for each bill for gas shall be no earlier than seventeen (17) days after the date of its mailing or electronic delivery to the customer.
14. **Charge on Delinquent Bills.** Each monthly bill shall be due and payable within seventeen (17) days from the date of its mailing or electronic delivery. If not paid in full by the time the next bill is generated, a late payment charge of one-and-a-half percent (1 1/2%) may be imposed at the next bill date on all past due balances on the customer's account that have not been assessed a late payment charge on a prior bill.

Late payment charges will not be assessed to customers participating in the Percentage Income Payment Plan Plus ("PIPP Plus program"), or the Graduate PIPP Plus program, which replaces the former PIPP arrearage crediting program. Late payment charges will not be assessed to customers participating in a short-term payment plan or the budget billing plan provided they make the minimum payment required under the plan by the bill due date. If the required payment under a short-term payment plan or budget billing plan is paid late,

the late payment charge will be applied only to amounts due but not paid under the payment plan.

- 15. Billing Periods.** Bills ordinarily are rendered regularly at monthly intervals, but may be rendered more or less frequently at the Company's option. Non-receipt of bills by customer does not release or diminish the obligation of customer with respect to payment thereof. Unless otherwise ordered by the Commission, rate changes shall become effective for bills rendered as of the start of a billing cycle within the monthly billing period as determined by the Company.

- 16. Payment of Bills.** Bills may be paid by the customer in any of the following ways:

- a) online at www.enbridgegas.com or through other providers' Web sites,
- b) by bank draft automated withdrawal from customer's bank account,
- c) by credit/debit card or electronic check through a participating agency,
- d) at any one of the Company's authorized payment locations,
- e) by U.S. mail at the address specified on the bill,
- f) by Electronic Data Interchange (EDI),
- g) by Automated Clearing House (ACH) transfer.

- 17. Returned Payment Fee.** The customer will be charged a handling fee of \$20 for each returned item tendered or authorized as payment on the customer's account and returned for any reason, including insufficient or uncollected funds, closed account, revoked authorization or stop payment.

- 18. Meter Reading.** East Ohio will make reasonable attempts to obtain an actual meter reading by Company personnel or agents every other month. If East Ohio is unable to obtain an actual meter reading, it will render a bill based on estimated usage at the premises. East Ohio is required to obtain an actual meter reading at least once within each twelve-month period. "Actual meter reading" shall mean reading of an indoor or outdoor meter by an authorized agent or employee of East Ohio or through electronic or other means acceptable to the Commission. East Ohio will obtain an actual meter reading at the initiation and/or the termination of service if the meter has not been read within the immediately preceding seventy days and access to the meter is provided, or at the request of the customer if the meter has been read within the preceding seventy days.

If the customer has refused East Ohio access to its meter or other property, or if East Ohio has been unable to obtain an actual meter reading at least once within any twelve-month period, East Ohio may terminate service in accordance with Rule 9 of these Rules and Regulations. East Ohio may obtain a court order to gain access to its meter or other property.

Beginning on the effective date of these Rules and Regulations, East Ohio shall not be required to provide any service, including lighting service, on an unmetered basis. For those

customers receiving such service on or before the effective date of these Rules and Regulations, such service shall be billed on an estimated basis.

19. Meter Testing. In accordance with Section 4933.09 of the Ohio Revised Code, gas meters in use shall be tested on the request of the customer, in his presence if desired by him, with a tested and sealed meter-prover, by an authorized employee or agent of East Ohio. Residential customers may receive one meter test without charge every three years. For any other meter test requested by the customer, if the meter is found to be correct, and it is deemed correct if the variation is not greater than three percent, the party requesting the inspection shall pay a fee for the removal of the meter for the purpose of the test. The fee for a residential or small commercial customer using a 250 or 400 class diaphragm meter is \$91.00; for all other customers, the fee is \$562.00. If the meter is proved incorrect, no fees or expense shall be paid by the customer, and East Ohio shall furnish a new meter without charge to the customer.

20. Back Billing. East Ohio shall back bill in accordance with the guidelines established by the Public Utilities Commission of Ohio and the Ohio legislature (Section 4933.28 of the Ohio Revised Code and Rule 4901:1-13-04 of the Ohio Administrative Code) and any successors.

21. Delinquent Balance Transfer.

- a) Except as otherwise provided in subparagraph b., East Ohio shall have the right to transfer a delinquent commercial or industrial account balance, regardless of the service address, to another commercial or industrial account in the name of or owned by the same customer or owner of that business or establishment.

For purposes of this Rule 22, "customer" means the party in whose name the account is carried.

- b) East Ohio may not transfer a delinquent commercial/industrial account to any residential account.

22. Investigation Fee. Whenever the gas service meter, metering equipment, or other Company equipment or property was damaged, interfered with, displaced, bypassed or otherwise tampered with by a customer, consumer or other person, or when a person not authorized by East Ohio has reconnected service, and a service investigator has been dispatched to investigate the matter prior to disconnection, the customer shall pay an Investigation Fee of \$157.00 prior to reconnection in addition to other required reconnection charges. The Investigation Fee will only be levied in those circumstances where East Ohio has reasonable proof of the customer's fraudulent or damaging practice. Reasonable proof includes an admission by the customer, documentation evidencing the fraudulent or damaging practice, or personal observation by East Ohio personnel or authorized agents of East Ohio.

SECTION III- SERVICE LINES & MAINLINE EXTENSIONS

- 23. Service Line Installation and Restoration.** In the installation of a service line, East Ohio will be responsible for all necessary connections with its distribution system and the extension of the service line from the distribution main to the meter without cost to the property owner or customer, provided that the customer or property owner must provide any necessary property rights at the customer's or property owner's expense. In addition, beginning on November 1, 2025, East Ohio shall have no obligation to connect residential customers directly to storage, gathering, transmission, or other high-pressure lines.

East Ohio shall make reasonable efforts to restore hard and soft surfaces disturbed during the installation, repair, and/or replacement of a service line or main line, provided that East Ohio shall not be required to complete permanent restoration between November 1 and March 30. East Ohio is not responsible for restoration of landscaping, trees, bushes, or any other obstructions interfering with its service line or main line work areas.

- 24. Service Line Responsibilities.** Unless and until East Ohio repairs or replaces an existing service line, the service line from the curb valve to the meter, or where there is no curb valve then from and including the tie-in coupling to the meter, shall be the property of the owner of the premises and shall be under the property owner's exclusive control, and East Ohio shall not be liable for any imperfections therein or for any damage, injury or loss resulting, directly or indirectly, from the escape of gas therefrom. East Ohio shall be responsible for these facilities in accordance with the applicable provisions of the Pipeline Safety Act, 49 U.S.C. 60101 et seq., 49 C.F.R. part 192 and all applicable federal regulations, and Chapter 4901:1-16 of the Ohio Administrative Code. Such responsibilities shall include, but not be limited to, East Ohio's responsibilities for cathodic protection and leak detection of the service line up to and including the meter. East Ohio shall bear the cost of repairs or replacements to the service line and shall assume ownership of and responsibility for the service line whenever it is separated from the distribution main and a pressure test is required before the line can be returned to service. In the event a service line must be repaired or replaced as the result of damage to the service line caused by the property owner, customer or another party, East Ohio will repair or replace the service line at the expense of the property owner, customer or other party. Damages caused by a contractor working on behalf of a party shall be deemed to be the responsibility of that party. All gas lines on the outlet side of the meter and all associated fittings and connections shall at all times be the property of the owner of the premises and shall be under the property owner's exclusive control, and East Ohio shall not be liable for any imperfections therein or for any damage, injury or loss resulting, directly or indirectly, from the escape of gas therefrom.

- 25. Installation and Inspection.** Before applying to East Ohio to turn on gas, it shall be the duty of the applicant to see that the gas lines on the outlet side of the meter and all associated fittings and connections and all gas appliances and equipment connected thereto have been installed and tested and are maintained in accordance with applicable

governmental codes and regulations including, but not limited to, the International Fuel Gas Code and with the reasonable requirements of East Ohio and are free of leaks. East Ohio shall comply with Rule 4901:1-13-05 of the Ohio Administrative Code with respect to testing gas piping downstream of the meter.

26. **Service Line Extensions Prohibited.** No service line supplying gas to any building shall be extended by the owner or customer so as to furnish gas to any other building.
27. **House Piping.** The customer shall install and maintain, at the customer's expense, the house piping from the outlet of the meter to gas burning appliances and equipment.
28. **Appliances and Equipment.** The customer shall install and maintain all gas burning appliances and equipment, at the customer's expense.
29. **Inspections of Altered Piping.** It shall be the duty of the customer or property owner to notify the Company promptly of any additions, changes, alterations, remodeling or reconstruction affecting gas piping or expected gas consumption on the customer's premises.
30. **Extension of Distribution Mains: Residential Customers.** East Ohio will extend its distribution mains for the furnishing of natural gas on any dedicated street or highway without cost to the residential customer whenever at least one such customer on an average of each 100 additional feet of pipe in the street or highway in which the extension is to be run shall first agree to take a supply of gas at the applicable rate within six months of the completion of the extension, measurement to be taken from the end of the nearest distribution main that has the capacity to serve the customer(s). Upon application for a service extension of main in excess of an average of 100 feet for each applicant for such service, East Ohio may enter into an extension agreement with the applicant or applicants providing for a deposit with East Ohio of a sum deemed adequate by East Ohio to cover the cost to be incurred by it for the excess of the extension over the average of 100 feet for each applicant to be served, including but not limited to any costs associated with the acquisition of any necessary permits or property rights as determined by East Ohio. Each applicant shall have the option of making such payment in the form of a one-time deposit or a monthly payment to be billed to the applicant and/or subsequent customer(s) at the same premises for a period of seven years or until the cost of the mainline extension is included in East Ohio's rates and charges for service, whichever comes first. If the applicant chooses to make the payment in the form of a one-time deposit, such deposit shall be refunded within a period of 10 years from the date of the agreement at a rate per each additional residential customer thereafter connected with said extension, equivalent to the rate per 100 feet deposited, the total amount refunded not to exceed the amount deposited. Any applicant requesting a refund under this section shall provide a copy of the extension agreement and proof of identity. No refund shall be made after 10 years from the date of the extension agreement and such deposit shall, after such period, become the property of East Ohio. Extension deposits shall bear no interest. East Ohio shall apply the preceding terms for extension of distribution mains to home builders and residential developers on the basis of anticipated residential customers, and, as a result, the deposit installment payment and refund provisions are not applicable in such instances. Extensions of street and highway mains shall at all

times be the property of East Ohio. Mainline extensions that are not installed in road right of way, or adjacent thereto, will be made only if the following guidelines are met:

- a) A minimum 20 foot legally described easement is made and granted, provided, however, that all gas mainlines with a maximum allowable operating pressure at or above 100 psi must have a minimum 30 foot easement.
- b) Free and clear access to the gas mainline is maintained with no structures permitted on the easement.

East Ohio shall not be required to lay any service lines under or across paved streets or highways. East Ohio shall not be required to make any extensions of its mains or to lay any service lines during the months of December, January, February and March of any year. East Ohio shall not be required to lay any service line or main line for which any private or public permit or other property right is not granted.

Nothing contained herein shall be construed to prohibit East Ohio from making longer free extensions than herein prescribed provided like free extensions are made to other applicants under similar conditions.

31. Extension or Upgrade of Main Lines: Economic Development Projects. In those instances where a main is being extended or upgraded in connection with an economic development project approved by the Public Utilities Commission of Ohio under Section 4929.163 of the Ohio Revised Code, any deposit required may be funded, in whole or in part, by dollars recovered by East Ohio's Infrastructure Development Rider ("IDR") in accordance with rules set forth in 4901:1-43-04 of the Ohio Administrative Code. In circumstances where an IDR-funded mainline enables EOG to provide service to a subsequent, additional customer, EOG shall credit incremental revenues to amounts being recovered through the IDR by way of a subsequent rate adjustment. Incremental revenues shall comprise revenues that are in excess of the revenue needed to cover the costs of incremental depreciation expense, property tax expense, and operating and maintenance expense (if any), as well as a pre-tax return on rate base, for any capital investment required to serve such incremental load. Incremental revenues shall be credited to the IDR only to the extent that the credit to the IDR equals that portion of the project costs previously recovered through the IDR.

32. Right of Removal. No person or entity shall erect any structure within a Company easement or over any Company gas line, or change the existing grade over a Company gas line, without the express written permission of East Ohio. East Ohio shall have the right to remove any such structure or grade change, or replace or relocate its equipment, at the expense of the customer or responsible party.

33. Discontinuance of Supply on Notice or Discovery of Defect in Customer's Premises. If, at any time, in the opinion of East Ohio the customer or property owner's service line, other gas lines, fittings, connections, gas appliances or equipment at a premises are defective or in such condition as to create a risk to safety or to the reliability of service, East Ohio, upon notice or discovery of such defect or condition, may discontinue the supply of gas to such

appliances or equipment or to such service line or such other gas lines until such defect or condition has been rectified by the property owner or customer in a manner satisfactory to East Ohio.

34. **Excess Flow Valves.** A customer may request the installation of an excess flow valve (“EFV”) on an existing service line that qualifies for installation under federal pipeline safety regulations. Customers requesting installation of an EFV shall be responsible for the actual costs associated with installation, which shall be billable to the customer. East Ohio reserves the right not to install an EFV under conditions specified under federal pipeline safety regulations.
35. **Temporary Service.** In addition to regular payments for gas used, a non-residential customer shall pay the cost for all material, labor, and all other necessary expense incurred by East Ohio in supplying gas service if requested for any temporary purpose or use. East Ohio shall be under no obligation to provide temporary service for residential use. Temporary service shall not be considered to be initial operation of nonresidential gas service for purposes of compliance with Rule 4901:1-13-05(A)(3) of the Ohio Administrative Code or any successor.

SECTION IV – MISCELLANEOUS

36. **Tariff Disclosure.** A full and complete copy of East Ohio's current tariff covering rates and charges for service and terms and conditions of service will be available on www.enbridgegas.com. East Ohio shall comply with the tariff disclosure requirements established by The Public Utilities Commission of Ohio and set forth in Section 4901:1-1-03 of the Ohio Administrative Code or any successor, as amended from time to time. East Ohio will provide annual written notice to GTS, DTS and LVECTS transportation customers whose usage is at or below 3000 mcf that alternative tariff schedules may be apply and be more economical, depending on the customer’s needs.
37. **PUCO Orders.** These Rules and Regulations are subject to and include as part thereof all orders, rules and regulations applicable to East Ohio from time to time issued or established by the Public Utilities Commission of Ohio under its emergency powers.
38. **Right to Modify.** East Ohio reserves the right to modify, alter or amend the foregoing Rules and Regulations and to make such further and other rules and regulations as experience may suggest and as East Ohio may deem necessary or convenient in the conduct of its business.
