☐ New ☐ Replaced ☐ Repaired

Customer house line information (piping system from meter outlet to appliances)

Pressure test information – new house lines and existing house lines undergoing a pressure increase

Applicable for new house lines and whenever the proposed maximum working pressure of an existing house line is increased.

Proposed working pressure: _____

Test performed: _____ PSI Test duration: _____ minutes

When re-establishing gas service, a pressure test performed with a gauge shall be conducted at no less than 1.5 times the proposed working pressure but not less than 3 PSIG, and in accordance with all applicable codes and standards.

Pressure test information – existing house lines

Applicable only when re-establishing service at an installation with no piping modifications.

☐ Operating pressure for 3 minutes Operating pressure: _____

When re-establishing gas service, a pressure test performed with a gauge shall be conducted at operating pressure for a duration of no less than 3 minutes, and in accordance with all applicable codes and standards.

Check, sign and date below to acknowledge that the following items are required prior to Enbridge Gas Ohio setting a meter:

☐ All exterior house line piping must be painted.
For new construction, the House Line Installation Record will **not** be accepted by Enbridge Gas Ohio until **after** an application for natural gas service has been made for the premises.

☐ **Check box for multi-meter manifold installations only.** Gas piping at multiple meter installations must be marked by metal tags designating the building or part of the building being supplied. **Each unit/apartment must be clearly identified at the meter location with a permanent weatherproof metal tag**. The tag must contain the unit/apartment number as provided to Enbridge Gas Ohio in the application for service.

☐ The person performing the installation or repairs ("installer") understands and agrees that by Enbridge Gas Ohio setting the meter, Enbridge Gas Ohio is not assuming nor accepting any responsibility or liability for the installation or repair work performed by the installer and that the installer remains solely responsible for any work performed other than the setting of the meter. Further, installer agrees to indemnify, hold harmless, and if requested, defend Enbridge Gas Ohio, its officers, employees and agents from and against any and all liabilities, costs, claims, demands, fines, penalties, suits (including cost of defense), proceedings, actions, and causes of action, including reasonable attorneys' fees arising out of, or associated with, or related to the installation described herein.

☐ **By signing this form, the installer attests that they installed, or repaired and tested the house line in accordance with all applicable codes and standards.**
