

January 2026

Natural gas rates have changed

Rate M2 - Union South
Energy Marketer Customer

New natural gas rates

The Ontario Energy Board (OEB) has approved changes to the rates Enbridge Gas charges its customers effective **Jan. 1, 2026**.

The total impact on your bill will depend on how much gas you use and the terms of your gas marketer agreement.

Customer Charge

The customer charge increased to \$85.78 a month to partially recover some of the fixed costs associated with maintaining a safe and reliable natural gas distribution system.

Delivery to You

The delivery charges that vary with consumption increased based on our forecast cost of delivering natural gas to your home or business. These charges include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you. The facility carbon charge has increased from 0.0123 cents per cubic metre (¢/m^3) to 0.0145 ¢/m^3 .

Gas Supply Commodity Charge

The price you pay for the natural gas you use, shown as the gas supply charge on your bill, depends on the terms of your gas marketer agreement.

Rate Adjustment

This rate change includes an adjustment to reflect the clearance of the 2023 Utility Earnings and Disposition of Deferral and Variance Account (UEDVA) balances. This will appear on customers' January bills as a one-time refund of approximately \$1.99 for a typical customer.

Charges for gas used from Jan. 1, 2026 will be calculated using the new approved rates as shown in the chart. The annualized impact is based on a typical Rate M2 - Union South customer who uses 73,000 cubic metres (m³) per year while buying gas from an energy marketer.
