# Enbridge Gas Receives Ontario Energy Board Approval for Rate Changes Effective Jan. 1, 2025

Enbridge Gas recently received approval from the Ontario Energy Board (OEB) for rate changes effective Jan. 1, 2025 ([EB-2024-0326](#)). These changes were proposed to the OEB earlier this month as part of the Quarterly Rate Adjustment Mechanism (QRAM).

QRAM is the mechanism Enbridge Gas uses to review and adjust our rates for changes in natural gas prices. This is done every three months to reflect ongoing changes in the market price of natural gas and to adjust for the difference between the forecasted price of natural gas and actual price from prior periods.

In addition to updating rates in the EGD and Union rate zones in accordance with Enbridge Gas' Board-approved QRAM methodologies, Jan. 1, 2025 rates will also reflect:

- Interim 2025 Rates and the 2024 Rebasing Phase 2 Settlement Agreement ([EB-2024-0111](#)) approved by the OEB Nov. 29, 2024. The 2025 Rates Rate Order reflects:
  - Changes to the 2024 revenue requirement from the Phase 2 settlement proposal, including a rate adjustment rider (Rider E) to recover the 2024 Phase 2 impacts.
  - 2025 rates reflecting application of the Price Cap Incentive Rate-making Mechanism, include a base rate adjustment to move capitalized overheads to O&M, application of the price cap index, and Y-factor adjustments.
  - Unit rates reflecting levelized rate treatment for the Panhandle Regional Expansion Project starting in 2025.
  - Changes to Rider A (Direct Purchase) to reflect application of inflation on Energy Retail Service Charges.
  - Changes to Rider G (Service Charges) to reflect application of price cap index on application service charges.
- Expiration of Rider D and Rider E approved in the 2024 Rebasing Phase 1 Rate Order ([EB-2022-0200](#)) that were effective May 1 – Dec. 31, 2024. Please reference our [historical newsletter](#) for more information on Rider D and E.

All changes are reflected in the rates highlighted below.
