

April 2026

Natural gas rates have changed

Rate 01 - Union North East
Energy Marketer Customer

New natural gas rates

The Ontario Energy Board (OEB) has approved changes to the rates Enbridge Gas charges its customers effective **April 1, 2026**.

The total impact on your bill will depend on how much gas you use and the terms of your gas marketer agreement.

Delivery to You

The delivery charges that vary with consumption decreased based on our forecast cost of delivering natural gas to your home or business. These charges include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you.

Transportation to Enbridge

The transportation charge has decreased by approximately \$0.46 per year for a typical customer due to lower costs for transporting natural gas to Ontario.

Gas Supply Commodity Charge

The price you pay for the natural gas you use, shown as the gas supply charge on your bill, depends on the terms of your gas marketer agreement.

Cost Adjustment

The current adjustment is a refund of 0.5727 ¢/m³. The cost adjustment accounts for the variance between actual and forecast prices from earlier periods. Please see the included chart for the breakdown by component.

Charges for gas used from April 1, 2026 will be calculated using the new approved rates as shown in the chart. The annualized impact is based on a typical Rate 01 - Union North East customer who uses 2,200 cubic metres (m³) per year while buying gas from an energy marketer.
