## New natural gas rates

The Ontario Energy Board (OEB) has approved changes to the rates Enbridge Gas charges its customers effective **July 1, 2026**.

For a typical customer the total annual bill increase will be \$8.77. The total impact on your bill will depend on how much gas you use.

### Delivery to You

The delivery charges that vary with consumption decreased based on our forecast cost of delivering natural gas to your home or business. These charges include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you.

### Transportation to Enbridge

The transportation charge has increased by approximately \$0.06 per year for a typical customer due to higher costs for transporting natural gas to Ontario.

### Gas Supply Commodity Charge

The gas supply commodity charge has increased from 10.6652 ¢/m<sup>3</sup> to 10.8019 ¢/m<sup>3</sup> based on our forecast of natural gas market prices for the next 12 months.

### Cost Adjustment

The current adjustment is a refund of 4.7254 ¢/m<sup>3</sup>. The cost adjustment accounts for the variance between actual and forecast prices from earlier periods. Please see the included chart for the breakdown by component.

### Rate Adjustment

This rate adjustment reflects the difference between the amount customers paid for the energy conservation programs (DSM) from Jan. 1 to Dec. 31, 2023 and the actual costs incurred. This will appear on customers' July bills as a one-time refund of approximately \$1.27 for a typical customer.

Charges for gas used from July 1, 2026 will be calculated using the new approved rates as shown in the chart. The annualized impact is based on a typical Rate 01 - Union North West customer who uses 2,200 cubic metres (m<sup>3</sup>) per year.
