New natural gas rates

The Ontario Energy Board (OEB) has approved changes to the rates Enbridge Gas charges its customers effective **Jan. 1, 2026**.

For a typical customer the total annual bill increase will be \$89.65. The total impact on your bill will depend on how much gas you use.

Customer Charge

The customer charge increased to \$28.91 a month to partially recover some of the fixed costs associated with maintaining a safe and reliable natural gas distribution system.

Delivery to You

The delivery charges that vary with consumption increased based on our forecast cost of delivering natural gas to your home or business. These charges include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you. The facility carbon charge has increased from 0.0123 cents per cubic metre (¢/m^3) to 0.0145 ¢/m^3 .

Gas Supply Commodity Charge

The gas supply commodity charge has increased from 17.1603 ¢/m^3 to 20.4037 ¢/m^3 based on our forecast of natural gas market prices for the next 12 months.

Cost Adjustment

The current adjustment is a refund of 1.1703 ¢/m^3 . The cost adjustment reflects the true-up between actual and forecast prices for prior periods. Please see the included chart for the breakdown by component.

Rate Adjustment

This rate change includes an adjustment to reflect the clearance of the 2023 Utility Earnings and Disposition of Deferral and Variance Account (UEDVA) balances. This will appear on customers' January bills as a one-time charge of approximately \$9.37 for a typical customer.

Charges for gas used from Jan. 1, 2026 will be calculated using the new approved rates as shown in the chart. The annualized impact is based on a typical Rate M1 - Union South customer who uses 2,200 cubic metres (m³) per year.
